

PERSHING TO RADICALLY ALTER METHODS

FAILURE OF VILLA TO MAKE STAND WILL CAUSE CHANGE

PLAN WILL NOT BE REVEALED IF FUNSTON CAN PREVENT IT

Every Effort Will Be Made To Keep Secret the Movements of Troops If It Becomes Necessary To Abandon Direct Line of Pursuit With Units of Little Army Practically in Contact.

SAN ANTONIO, Texas, Mar. 18.—Failure by Francisco Villa, on whose trail more than four thousand United States troops are marching, to make a stand and fight before the end of next week, will radically alter the methods so far employed by the commander of the punitive expedition. What General Pershing's plan is, however, has not been revealed and will not be if General Funston can prevent it. Every effort will be made to keep secret the movement of troops if it becomes necessary to abandon the direct line of pursuit with the units of the little army practically in contact.

When General Pershing led the expeditionary force over the boundary line into Mexico the junction of troops which has taken place near Casas Grandes was planned with the expectation that Villa would be sighted before this time. It was realized that the only chance of the Americans to catch him at that stage of the operations was that he would gather his forces and resist their advance. Not only did he not do that but according to General Funston's reports, not a shot was fired at the invaders.

Believe Villa is in Mountains.
General Pershing's scouts may have brought him information as to Villa's location but such information has been received at the general headquarters here makes an assertion on the subject little better than a guess. There is reason to believe that he has retreated as the Americans advanced and that now he is somewhere in the Galeana district south of Casas Grandes, in the environs where a cavalry force under Col. Dodd rested today. Information received by General Funston from Chihuahua indicated that he was at Ahuala Gracias, but most of those reporting contented themselves by placing him "in the mountains from sixty to one hundred miles south of Casas Grandes."

To force Villa to fight or to trap him in one of his many hiding places has now become the object of General Pershing's plan. Whether Villa will risk a fight or play out the role of a common fugitive is a subject for speculation.

Unofficial reports that General Pershing did not insist upon sending into Casas Grandes the advance cavalry force after General Gaviro had intimidated such entry would meet resistance lowered the tension at General Funston's headquarters. General Funston was convinced that General Pershing would not pass his troops thru any Mexican town unless he regarded it as a military necessity, but in case of such necessity he was prepared to endorse the action of the man on the spot.

Continues Routine Reports.
General Pershing continued his reports of routine development of the plan, none of his reports dealing with an unexpected or unusual incident. General Funston replied to thousands of petitions from scores of towns in Texas where the inhabitants wanted troops for protection that it would be impossible to grant their wishes. In all cases he suggested that if they felt the need of protection it might be well if they were to organize local defense forces. Members of the local automobile club called a meeting for next week for the purpose of ascertaining how many members will promise to turn over their automobiles and provide drivers in case they are desired by the war department.

Unusual activity displayed by the de facto government of Mexico in adding to its stores of ammunition is shown in reports from customs officers at different border ports of entry. According to these reports and to information obtained by army officers, shipments of rifle ammunition in car load lots by express have become common in the past three weeks. This apparent haste was being shown before Villa raided Columbus.

Much of the new ammunition entered at points on the New Mexico and Arizona border and was supposed to be intended for the troops in Sonora. Since the Columbus raid three million rounds passed thru the custom house at Laredo.

Far from being a shortage of ammunition in Mexico army men say there is more small arms material there now than there has been for many years.

Did Not Fire a Hospital Shot.
EL PASO, Texas, Mar. 18.—The first phase of the American expedition into Mexico, the rush along Villa's dim trail to the endangered Mormon colonies, was an accomplished fact tonight completed according to reports reaching the Columbus base without the firing of a hostile shot by the Americans.

Second Phase Already Beginning.
The second phase already was beginning it was indicated here, as the Americans turned somewhere from Casas Grandes to resume their night marches under the Mexican moon toward the rough mountain slopes where it is known Francisco Villa already has preceded them with more than 100 miles start.

Warning that this second act in the chase might not pass without fighting against bandits was implied in a new and more stringent censorship imposed at Columbus. Further leakage of news of military nature the censor said frankly to the American press, would be likely to cost soldiers' lives.

Brief Excitement at Columbus.
There was brief excitement today at Columbus from across the border, two soldiers on stretchers being brought into the camp. Both were cavalrymen. Excitement passed when it was learned that one had been thrown from his horse, injuring his leg, while the other, who at first was said to have been shot in the abdomen, was found to be suffering from cramps.

When Washington announced that the American columns did not intend to occupy cities, a menace to Mexican national pride was removed. The Carranza garrisons which have been placed by the marching Americans and which therefore now are in the American's rear on their flanks continued tranquil so reports to El Paso indicated.

General Gabriel Gaviro at Juarez commanding the territory thru which for three days the Americans have been penetrating, announced that for a time the situation as reported to him had been delicate and even serious. With evident relief he said that the crisis had passed. This crisis, it is believed, reached its height last night when couriers dashing into Casas Grandes, announced with careless enthusiasm that the American troops would enter that city by midnight.

General Gaviro wired immediate orders to troops not to permit this Villa was located today with some degree of definiteness.

Villa Close To Mountains.
From several sources constitutionalists received messages all of which had him nearly due south of the American column present known positions and close to the Sierra Tarahumara mountains, so close to them in fact that if his reputation as a fox holds good during the American chase, he should be able to make a puzzling disappearance in these ranges with a very few hours' hard riding.

By all accounts he is more than 100 miles ahead of the Americans, about the same distance he has been out of their reach for a week, but with one possibly important difference that while heretofore the Americans have been riding on a somewhat cold trail they now are nearing ground which Villa passed over very recently and where they may have practical opportunity to test the temper of the rural Mexicans from whom they might receive valuable information. The story that Villa is gathering men and preparing to resist was revived in Constitutional circles today and he was even said to have ten million rounds of cartridges and shells, many of which however, secreted in the mountains where he was expected to make a stand.

Doubt that Villa would do any such thing was expressed however, by Andres Garcia the Mexican consul here who claimed that Villa intends to make the American expeditionary force a joke. Mr. Garcia

declared he was convinced that the bandit had no intention of fighting Americans.

States Villa Intends to Hide.
"One of my men," he said, "who returned from the Galeana district today brought me positive information that Villa was disbanding his men and intended to hide in the mountains with three or four of his trusted followers and defy the Americans to find him. An army might wander in that region for years and never find a man like Villa, who knows every foot of the ground."

"I am convinced that Villa intends to play hide-and-seek with the American soldiers with the intention of making their expedition ridiculous. He may make raids on lines of communications or something like that but he will never risk a real battle."

The rewards which have been offered for Villa, alive or dead, in Mr. Garcia's opinion are the best hopes of ending the bandits' career.

"The news of these rewards will flash thru the region," he said, "and I should be very much surprised if they do not bring some result."

The Carranza consul has a plan of his own which he believes is the best way to capture Villa.

"General Gutierrez," he said, "told me he expected to have 15,000 men on Villa's trail within a week. Then there are four thousand to five thousand American troops. I do not believe all these thousands of men with all their equipment is needed. What is needed is about five columns of 500 picked men each all well mounted and carrying the least possible amount of equipment. These columns should be in sufficiently close touch to be able to render assistance anyone of them that Villa attacked. If they moved fast and were right men they would have a good chance to lay Villa by the heels."

Garcia Denies Statements.
Mr. Garcia denied the repeated statements that the people of Guerrero and Galeana are in sympathy with the fugitive.

"Many of them are afraid of him, of course," he said, "but it must be remembered that Villa of today is not the Villa of five years ago. In the early part of his career, he was very liberal with the people about him. If he got \$500, say in a raid, he would give half of it away. But when he began to gather power, he seized everything for himself. Those people among whom he now is have a long history of murders and attacks upon their women to avenge. The only hold he has on them is fear."

North Central Mexico in the neighborhood of the former Villa stronghold of Torreón and about Durango, furnished reports of fights between small bands of outlaws and constitutionalists troops. One of these bandit organizations in the fight near Torreón was credited with being a Villa band.

Receive Re-assuring Advice.
Washington, Mar. 18.—Re-assuring advice came to both the state and war department today from Mexico where American forces are following the trail of Villa and his bandit followers. The official reports indicated that the troops thus far had encountered no Villa followers, tho it was indicated an engagement might be expected soon. Consular dispatches told of quiet conditions elsewhere thruout Mexico.

The state department's advice which include a despatch saying conditions were improving about Tampico were laid before President Wilson personally tonight by acting Secretary Polk.

Mr. Polk also conferred late in the day with Eleio Alfreddo, General Carranza's ambassador designate, but neither official would discuss the subject of their talk except to say that reference had been made to shipments of munitions which the de facto government is anxious to get to Vera Cruz from New York. General Funston's request that the American forces be permitted to use Mexican railways for troop transportation was forwarded late today to Consular Agent Rogers for presentation to General Carranza at Queretaro. Officials here closely associated with the de facto government are understood to believe Carranza will be advised by many of his followers against granting the request on the ground that to do so might arouse public sentiment against the de facto government, seriously affecting the control it has established over the native population.

The report of better conditions at Tampico and in the adjacent fields, where the situation for several days past has been a cause of some concern brought the information that previous apprehension had been caused by the failure of the military authorities to receive from the de facto government an understanding of why American troops had crossed the border. It was said that as soon as accurate information reached Tampico improvement in general conditions was apparent.

PANAMA-CALIFORNIA EXPOSITION OPENS

TWENTY NATIONS PARTICIPATE IN FESTIVITIES

Approximately 20,000 Visitors Crowd Courts and Flower Filled Patios—Secretary of Interior Lane is Orator of the Day.

San Diego, Calif., Mar. 18.—The Panama-California International Exposition was formally thrown open to the world today with twenty nations participating and with approximately 20,000 visitors crowding its sunny courts and flower filled patios.

Festivities began at ten o'clock with a military and naval parade reviewed by Secretary of the Interior Lane, the orator of the day; the governors of all western states or their representatives, President G. A. Davidson of the exposition and state and city officials from all parts of the Pacific coast.

Among the lesser of the day's spectacles was the raising of the new exposition flag on the Plaza de Panama and the unfurling of the flags of the nations participating, while salutes were fired from the vessels of the Pacific fleet in the harbor. Among these flags was the standard of Spain sent for the occasion by King Alfonso and hoisted aloft by Count Del Valle de Salazar, San Diego, San Francisco and Los Angeles bachelors combined in a merry dedication of the exposition's "court of leap year."

In the evening the exposition banquet was held at the Cristobal cafe. Among those present were Secretary of the Interior Franklin K. Lane, who represented President Wilson, officers of the army and navy; exposition officials and scores of distinguished visitors.

Since its 1915 regime, the exposition has been greatly enriched by exhibits from Canada, France, Italy, Germany. The United States government has added 15,000 square feet of space, requiring three buildings with displays illustrating all branches of its activities and a thousand marines, a troop of cavalry, a battalion of infantry and two bands are stationed on the grounds.

ARRANGEMENTS FOR WILLARD, MORAN BOAT SATISFY COMMISSIONERS

Chairman Wenick Is Assured Arrangements Would Insure Safety of Spectators.

New York, March 18.—Chairman Wenick of the New York state athletic committee stated today that the arrangements made by the management of Madison Square Garden and the promoters of the Willard-Moran bout which is to be fought here next Saturday night are satisfactory in every detail to the commissioners. He felt assured, he said, that the police arrangements as well as the enforcement of the non-smoking rule would insure the safety of the spectators.

Willard took a brisk walk and a couple of short runs in Central Park this morning. Later he went through about ten minutes with the pulleys, punching the bag and shadow-boxing. He boxed three rounds each with Hempel, Monahan and Rodell and then wrestled with Rodell for three minutes. The champion worked hard all day.

Moran celebrated his 29th birthday by taking a three-mile run over the roads early in the morning. He took only light gymnasium exercises this afternoon and boxed five rounds with his three sparring partners.

WILL NOT WITHDRAW INVITATION.

Chicago, March 18.—Members of the executive committee of the Illinois State Bar association met here today and decided not to withdraw the invitation extended to Theodore Roosevelt to address the body in Chicago, April 29. A number of lawyers who objected to Colonel Roosevelt's views on the recall of judges wrote letters to protest at the time the invitation was announced.

OBSERVE CLEVELAND'S ANNIVERSARY

Caldwell, N. J., March 18.—The seventy eighth anniversary of the birth of Grover Cleveland was celebrated today at the birth place here of the late president with exercises under the auspices of the Grover Cleveland birthplace memorial association.

Numerous new found relics of Mr. Cleveland were on exhibition at his birthplace which was thrown open to the public in the afternoon.

SAYS AMERICANS ARE A FIGHTING RACE

Philadelphia, Mar. 18.—Secretary of War Baker, addressing the members of the University of Pennsylvania chapter of the Phi Gamma Delta Fraternity at their annual invitation dinner tonight said the American people are a fighting race and that they are cosmopolitan race and because of their character in these respects they are more inclined to love the eagle than the dove. He said peace can only be assured by preparedness to resist invasion.

TELEGRAPHIC BRIEFS

DES MOINES, Ia.—Mrs. Deborah Knox Livingston, of Bangor, Me., is to tour this state in the interests of woman suffrage.

WASHINGTON.—The United States will make no protest against the new British order in council which will prohibit importation of so-called luxuries, unless it develops that in operation, the orders will act in a discriminatory manner against the United States.

CHICAGO.—Navigation on Lake Michigan for the season of 1916 opened when the steamer Puritan of the Graham and Morton line left for its first regular trip to Holland, Mich.

CHICAGO.—Charles H. McConnell, civil war veteran, former theatrical magnate and a prominent business man of Chicago, is dead here. He made and lost two fortunes and then built up a third one after he was 50 years old.

RIVERSIDE, Cal.—Volunteers are being recruited for a vigilance committee of 200, authorized by the city council for service in the event of a Mexican outbreak here.

CHICAGO.—Miss Hendrick Van Dertler is in Chicago in the interest of a movement to build a colony of cottages near Antwerp where Belgian children orphaned by the war can be educated and cared for after the war.

CHICAGO.—A complete military organization in the third and fourth year of high school is recommended by the subcommittee on military training, and the report will be submitted to the board of education next week.

CHICAGO.—W. E. Williams, congressman at large from Illinois, favors a reconsideration of the vote by which the women suffrage amendment was postponed to December. The congressman made this statement in a letter to Mrs. Bertram Sippy of the Congressional Union.

ROANOKE, Va.—Jack Allen, brother of Sidney and Floyd Allen, leaders of the gang that assassinated officials of the Carroll county court at Hillsville, was killed at the home of Mrs. Birt Martin, seven miles from Mount Airy, N. C.

NEW YORK.—More than 2,500 boys of the elementary schools of New York and Brooklyn answered the call of the national school camp association and signified their willingness to prepare themselves for war in times of peace. The boys enrolled at armories and United States army officers were in charge of the registration.

YOUNGSTOWN, O.—Judge W. S. Anderson announced that the hearing on the motion to quash the indictments against six steel companies and E. H. Gary, indicted on charge of conspiring to fix the price of labor and steel, will be held Wednesday, March 22.

DENVER, Colo.—Bishop Francis J. McConnell of the Methodist Episcopal church, who arrived with three missionaries from Mexico, declared so long as the United States respects the sovereignty of Mexico, diplomatic relations would not be endangered. He said missionaries were not being withdrawn except for ill health.

ASSERTS VILLA BOASTED HE WOULD FORCE INTERVENTION

American Mining Man States He Heard Mexican Bandit Make Boast December 13 Last.

El Paso, Tex., March 18.—Villa boasted three months ago that he would force intervention in Mexico, says the United States, according to a story told here today by Harry Williams of Chihuahua, an American mining man. Williams asserted that he had heard Villa make the boast on December 13 last when he was a prisoner of the bandit.

"I was one of thirty-nine Americans employed on the mining property of the Madera company," said Williams. "We were all arrested because the pay of Mexicans working under us had not arrived from Chihuahua. It amounted to \$17,000 and the company was afraid to send it because they were certain it would be confiscated."

"Villa brought us to Chihuahua and I have never seen him in an uglier mood. We did not know whether we were going to be shot or not, but we were not by any means too optimistic. He told us: 'I am going to force intervention by the United States in three months. The United States has recognized Carranza and must pay for it.'"

"He demanded \$31,000 from the company. I do not know whether it was paid or not but we were released the next day after being warned to keep off the streets."

"I planned to leave on the train that was made up to take out the men of the Cusi Mining company. Fortunately I felt sick and could not go. The next day I heard of the massacre of the eighteen Americans on the train at Santa Ysabel."

Mr. Williams has been seventeen years in Mexico but says he is not anxious to return.

MRS. LOUISE ENGLISH KILLS HER HUSBAND

SHOOTING IS DONE IN PRESENCE OF SIX-YEAR OLD DAUGHTER

Mrs. English Claims She Shot in Self-defense, When Her Husband, Arthur E. English, in a Fit of Anger Pointed a Revolver at Her.

Frederick, Md., Mar. 18.—Mrs. Louise Young English shot and killed her husband Arthur E. English, a lawyer of New York, at their home near here today. The shooting was done in the presence of their six year old daughter and is said to have occurred during a quarrel.

English was the son of Thomas Dunn English, a former congressman from New Jersey and the author of the song "Ben Bolt."

Mrs. English claims that she shot in self defense, when her husband, in a fit of anger, pointed a revolver at her. An examination of the body of English showed that a bullet had gone thru the heart and that four other bullets had taken effect. The furniture in the room in which the body was found was in great disorder, indicating that a struggle had taken place.

After the shooting Mrs. English took her four children to the home of a neighbor to whom she related the story of the tragedy. She telephoned to a physician in Frederick to hurry to the side of her husband whom she said she had shot. She then called police headquarters in Frederick and asked that a warrant be sworn out for her husband, who she said had threatened to take her life. She also told the police that she had shot her husband.

Mrs. English was exonerated from blame for the killing of her husband by a coroner's jury three tonight after she and three of her children had testified as to English's alleged brutality and frequent threats to kill his wife.

Was Assistant U. S. Attorney.

New York, Mar. 18.—Arthur English was assistant United States attorney in the department of the interior from 1893 to 1897 when he resigned and resumed private practice in this city. He was one of the commissioners of the Hudson-Fulton celebration in 1909. The present Mrs. English, whom he married in 1900, was his second wife, his first having died five years before. He had one son by his first marriage and three children, two sons and a daughter by his second.

Mr. English was born in this city in 1862 and was a graduate of New York University. He studied Hindoo, Greek, Roman, Hebrew, English and American law under private tutors. He also was a student of medicine and science. Mr. English had been admitted to the bar of this state, the District of Columbia and several other states.

PACIFIC MAIL COMPANY BUYS THREE DUTCH WEST INDIAN SHIPS

AMSTERDAM, Mar. 18.—The Pacific Mail Steamship company of San Francisco, has purchased three steamships from the Dutch West Indian mail steamship company. The Steamer Venezuela which had previously been sold to a Norwegian firm was re-sold to the Pacific mail company and has sailed for San Francisco under the American flag and with a Dutch crew.

On the way the Venezuela will call at Cardiff, Santos and Rio Janeiro. The other two steamers are the Ecuador and Colombia. They will leave shortly for San Francisco after being re-fitted.

DURUM WHEAT PRODUCTION NEARLY THREE EIGHT MILLION BUSHELS

WASHINGTON, Mar. 18.—Production of durum wheat last season in Minnesota and the Dakotas where 95 per cent of the country's total crop was grown at time of last census was about 37,900,000 bushels, compared with 18,900,000 in 1914 and 21,529,000 bushels in 1913, the bureau of crop estimates announced today. The average acre yield was 19.3 bushels.

In February the price of durum wheat averaged to producers about 107.7 cents per bushel or 7.4 cents under the price of other spring wheats, but the average per acre for durum was \$20.77 against \$20.04 for other spring wheats.

BREAKS WORLD'S RECORD.

Nokomis, Ill., Mar. 18.—Miss No. 10, has broken the world's record by mining 5,803 tons of coal in 8 hours. A Gillespie mine had held the record for years. This record broken by the local mine is for a single shift with a single vein of coal.

TAFT VOICES PROTEST.

St. Louis, Mo., Mar. 18.—A protest against the suggested abandonment of the Monroe Doctrine was voiced by former President Taft tonight in an address before the Contemporary club of St. Louis.

AIRMEN CHIEFLY ACTIVE IN WEST

Both Sides Report Continued Absence of Infantry Operations

FRENCH MAKE RAIDS

Paris Reports Points Bombarded Include Railway Stations of Conflans and Metz

SPORADIC FIGHTING IN EAST

The German offensive in the Verdun region now nearing the end of its fourth week, has again slackened decidedly, both Paris and Berlin reporting the continued absence of infantry operations by either side. The big guns here and there along the front in the vicinity of the fortress are intermittently pounding opposing positions, but the chief activity just at present seems to be by the airmen.

Numerous raids by French aviators are reported by the Paris war office at the points bombarded including the railway stations of Conflans and Metz. The showers of the heavy shells dropped are declared to have been causing numerous losses.

Elsewhere on the frontier artillery fire has been in progress. Russian frontier there has been only sporadic fighting.

Austrians Turn on Italians.
The Austrians have turned on the Italians along the Isonzo, where the initiative has recently been for the most part with General Cadorna's force. Vienna announces a successful attack north of the Tolmino bridge head in which Italian positions were captured together with nearly five hundred prisoners and three machine guns.

In Arabia the British report a defeat for a Turkish force which attacked an outpost near Aden.

London announces the torpedoing of the Dutch Steamer Palembang, bound from Rotterdam to Java. The vessel met her fate off the Galloper light in the Thames Estuary Saturday morning. All the members of the crew are reported saved.

Apparently the lost vessel was the Rotterdam owned steamer Palombar, of 6,754 tons engaged in the Holland-Java trade for which there two steamers of the name the smaller is an oil carrying vessel which was last reported at Kirkwall on a voyage from Philadelphia to Norway.

Russ Forces Resume March

Petrograd, Via London, Mar. 18.—After three weeks of suspended activity the main Russian forces beyond Erzerum which have been awaiting for the development of operations on the Black Sea and in the Lake Van region to make attacks, have resumed their westward march toward Sivas.

Altho the Russian advance is yielding a constantly growing number of Turkish prisoners, there is no reason to suppose that the Turks have begun to offer serious resistance to the pursuers. According to unofficial reports the large number of prisoners is accounted for by the Turkish discontent with conditions prevailing in the Turkish army, which has resulted in a growing disposition of the soldiers to surrender.

Motorists Take Part in Defeat.

London, Mar. 18.—An armored car section under the command of the Duke of Westminster played a leading part in the defeat and dispersal of tribesmen under command of Turkish officers on the western frontier of Egypt by the forces under command of Major General Peyton. After a aeroplane reconnaissance disclosed that Birwar has been evacuated, motorists were ordered to push forward with "reasonable boldness."

PATIENT AT STATE HOSPITAL DIED VERY SUDDENLY

Inquest Was Held Saturday Morning—Death Due to General Paralysis.

Deputy Coroner John M. Carroll held an inquest Saturday afternoon at Jacksonville State hospital to ascertain the cause of the death of Mrs. Nell Bennett, a patient there, which occurred very suddenly Saturday morning at 9 o'clock. The deceased, who was about sixty years old, had been at the hospital since 1913, being admitted from Adams county.

The witnesses whose testimony was heard were Dr. E. L. Hill, superintendent; Dr. McLean, of the hospital staff, and two of the attendants. It developed that the deceased was a paralytic, and that on Saturday morning while standing in the alcove of ward B 1, near the radiator, she suddenly fell to the floor. Upon examination it was found that death was almost instantaneous. The verdict reached was that death was the result of general paralysis of the insane.

The following composed the jury: Philip Grant, foreman; John Devlin, clerk; Harry Phillips, Robert Headen, John R. Kirkman and James C. Wood.

From the large assortment of men's Spring Styles shown by FRANK BYGONS, any man can secure a becoming hat.

Judging from crop reports, it would be a long and difficult task to starve out the United States. The country has 241,717,000 bushels of grain still in possession of the farmers. There is an advantage in this big reserve, for the coming season returns may not equal the bumper crops of the last few years.

German dyes, it is said, are the only ones satisfactory for producing the colors for the British "Union Jack." A consignment of flags made in the United States has just been rejected because of a lack of the Teutonic ingredient. The American flag has a similar problem. Red is pretty nearly an international color; as the socialist have long recognized.

West State street, when paved with asphalt, would again become one of the great thoroughfares of the city, one of which the community might be proud, instead of being a terror to all who are forced to drive over it. The "rocky road to Dublin" has nothing on West State street at present. Some of the property owners, however, seem to think \$4.54 per front foot assessment rocky. A large majority of the people on the street signed the petition for asphalt, and are said to be ready to take their medicine.

Ignorance of the law does not excuse a man convicted of a misdemeanor. Ignorance of his duties as president of a bank should not excuse William Worimer. His trial, however, will probably drag along for some weeks, if he is convicted it will be appealed and prolonged for years to come. Meanwhile people who lost their money through the failure of his bank may experience the delights of the "high cost of living" without the wherewith to pay the grocer. "Billy's" smile is not as bright as a few years ago, but according to Chicago newspapers his "imperturbability" has greatly increased.

Pay up week, and many other so called "weeks" and days with some special call to duty or otherwise have piled up on us of late almost as rapidly as bank holidays in the last few years. How would it do to have one week (just one) when all subscription papers and all schemes soliciting money be barred. How would a stay at home week, an attend to your own business week, a week on

Rippling Rhymes By WALT MASON

SCHOOLING.

At school I learned a lot that helps me not at all; I conked, till I was hot, cheap maps upon the wall, and learned the names of hills in

Lapland and Cathay, to trace the creeks and rills that wander near Bombay. I learned a lot of dates (when finished with the map), when kings and other skates went forth to have a scrap. The midnight oil I burned, and bucked the Rule of Three, and all the things I learned were not worth shucks to me. I learned some Latin roots, but never did they aid to buy a pair of boots, a bucksaw or a spade. I dug a while in Greek, and when I went to work I earned three bones a week, as haberdasher's clerk. They never used to teach the things that really count; the youth who tried to reach the top of learning's mount, would find, in after days, the knowledge he'd acquired obstructed all his ways, and made his wistfulness tired.

DATES IN ILLINOIS HISTORY.

ADD ILL HISTORICALLY
March 19, 1687—La Salle was assassinated in Texas by some of the men of his own party while trying to find his way back to the Mississippi and Illinois.

abling a man and even some women to become acquainted with their own households do. Wouldn't they be rare days and weeks? June is coming.

Politicians in Canada are charged with graft and reckless expenditure even more frequently, in proportion to their numbers, than in the United States, according to the Springfield (Mass.) Republican. Such charges whatever the justification for them, often lead to decisive results in elections. Less than a year ago the conservative government of Manitoba voluntarily surrendered office to the Liberals, thus admitting that it was no longer able to face public resentment at the waste of money in connection with the construction of certain public buildings. In British Columbia, within a week, two members of the conservative cabinet have been defeated by Liberal opponents at by-elections, and Liberals are encouraged to believe that Mr. Bowser's government is doomed. The heavy guaranteeing of railroad bonds is one of the sins charged against the premier and his predecessor, also a conservative, but there are other concrete issues on which the Liberals hope to wage a victorious campaign in the next general election.

In a recent talk before the Chamber of Commerce, Mayor Rodgers advanced the hope that the present city commission would be able to clear off the floating indebtedness of the city before the end of their term of office. A consummation devoutly to be wished for. The floating indebtedness means all unsecured bills against the city and has for years been a burden and a vexation to every city administration. It has been the cause of the usual "anticipation warrants," the borrowing in advance of next year's taxes. It has been an amount that has caused more prostration and deception than any other one item of the expenses of our city government. It has grown because of a willful disregard of receipts, of ordering expenditures when there was in many cases, no possibility of paying from income in sight. It cannot be said that it has been an outcome of good business methods; in fact just the reverse. "Floating indebtedness" has been a hang over, a burden inherited by each succeeding administration for years. If the mayor and present city commission can clean this up and turn city affairs over to their successors clear of this blot they will have done well and have made a record unequalled in a generation.

The decision of the state board of utilities in the case against the Springfield Gas Co., lowering the rate for gas from \$1. to 80 cents per one thousand, is one that sets a precedent, and will possibly be appealed to the courts as a test case. The basis of the rate is made on a valuation by the board of the value of the properties actually necessary in the maintenance of a plant, allowing for depreciation and all incidental expenses incurred in the business, but the difference as to the amount of money necessary to conduct the business as found by the board and the amounts the company claim they have invested amounts to several hundred thousands of dollars. The company valuation and contention was for about \$1,300,000, the board allowing only about \$800,000. The case decided will have an important bearing on the Jacksonville utilities, as the same points are involved. In our case the local properties are bonded for about \$150,000, citizens responsible for bringing the suit contending the valuation should be only about one-half that amount. In that case and if their contention is upheld what is the exact value of our bonds? While our people believe our rates here have been unnecessarily high, (as compared with other cities) and will welcome a decrease, yet they only desire to "live and let live." Give us a fair rate that will net the company a reasonable return on a fair valuation, and cut out the "water gas."

The Song of the Submarine.
Beware, beware, for the sea is deep,
And my sudden tang is the lightning's leap.
Oh, the ships of men are frail,
And the hungry waves are a wicked green.

Where they shelter the slimy submarine,
And the sea is cold and the sharks are lean,
And the fleets of men are frail!

Beware, beware, for I crave to kill,
And the will to wreck is my only will.
Oh, the ships of men are frail,
Oh, my scarlet stab is the serpent's sting.

And the demons dance to the song I sing,
Or the law of God is a threadbare thing,
And the fleets of men are frail!

Beware, beware, as you pass me by,
For my periscope is an evil eye,
And the ships of men are frail,
Oh, my ghoulsh soul is a livid red,
For I gloat in the deep o'er the ghastly dead.

And I glide where the preying fish are fed,
And the fleets of men are frail!

Beware, beware, as I sink abroad,
For the love of man is a farce, a fraud,
And the ships of men are frail,
Oh, the dead men bob in the ocean waves,
And the lunk fish glom in the ocean caves,
But I skulk in glee through the clammy graves.

And the fleets of men are frail!
Perrin Holmes Lowrey.

LELAND S. GRIFFITH BEGINS WORK AS LEE COUNTY ADVISOR

Husband of Former Alexander Resident Goes From Successful Putnam County Farm to Responsible Position.

Mrs. Margaret Colwell of Alexander received word recently from her daughter, Mrs. Leland S. Griffith of McNabb, telling of the appointment of Mr. Griffith to the position of county advisor for Lee county. Mr. Griffith has been a resident of Putnam county for several years and is widely known as a successful farmer and expert judge of seed corn. He has already begun his work as farm advisor, with headquarters at Amboy. Mrs. Griffith expects to make a visit at the home of her mother soon before going to Amboy to join her husband.

Regarding Mr. Griffith's appointment a recent issue of the Orange Judd Farmer has the following to say:

"L. S. Griffith has begun his work as county advisor in Lee county, Ill. He went to this work directly from his farm in Putnam county, which he has been operating successfully, putting in many modern ideas. He has been using limestone, rock phosphate, bone meal and numerous legume crops in his soil fertility management.

"Mr. Griffith is a life member of the Illinois corn growers' association. He holds a life certificate as expert corn judge and has done extensive corn breeding and oats testing in special seed plots. In 1914 he was a member of the committee to give the examination for corn judging certificates, and in 1915 a member of the committee to pass on the Illinois state corn show at Decatur. In 1914 he was elected vice-president of the corn growers' and stockmen's convention, and in 1912 his corn won the highest cup in the state at Urbana. Last year his corn won a gold medal at San Francisco.

"Of Quaker parentage, he was born in Putnam county, Ill., in 1887, and educated in the local school. He was then the best in the state. He graduated from the Illinois college of agriculture in 1909, made excellent grades in all his work and was elected to numerous honors. After graduation he rented a farm near Woodhull, Ill., where for three years he farmed nearly 500 acres. This farm was under the personal supervision of William G. Eckhardt, county advisor of DeKalb county, and in this work Mr. Griffith received a valuable part of his training.

"In 1913 he moved to his recent home at McNabb, where he has since been farming 160 acres growing and selling pure-bred seeds. At both Woodhull and McNabb he was associated with the management of the farmers' elevator, and in numerous other ways he has been associated with the leadership whenever he has been. He has also done considerable speaking at the farmers' institutes throughout the state. His wife was formerly Miss Jane Caldwell, a teacher at the widely known John Swaney consolidated school in Putnam county. Mr. Griffith's headquarters are at Amboy."

\$25 REWARD.

Will be paid for information leading directly to the arrest and conviction of the person or persons guilty of stealing the chickens from the Ornellas sisters, R. 3, city.

MORGAN COUNTY POULTRY ASSN. J. C. Weber, Sec.

MT. EMORY BAPTIST CHURCH.

FIRE AT SCHMALZ BAKERY.

The fire department was called to the Schmalz bakery on the north side of the square about 6 o'clock Saturday morning. Recently Mr. Schmalz installed a new heater and no flame was placed under it. When an employee shook the ashes down they dropped on the floor and set fire to it. A hole was burned in the floor but prompt action by the department put out the blaze before it started in the cellar where there was considerable inflammable material. The bakery was destroyed by fire about 14 years ago. At that time the employees tried to fight the blaze and it got away from them. On this occasion they turned in an alarm promptly and a bad fire was no doubt averted.

"DUBLIN DUDES" READY FOR ALL COMERS

The North-East street gang of this city has organized a "base ball team" of the season and they will be called the "Dublin Dudes." Their home diamonds will be at the first ward playgrounds. They are willing to play all teams whose players are not over 16 years of age. The players for the season are:

J. Burkrey, catcher; J. Blesse, pitcher; C. Blesse, 1st base; O. Tribble, 2d base; J. Kelly, 3d base; J. Tribble, left field; E. Burkrey, center field; T. Sellers, right field; J. Hennessey, short stop.

The officers of the game are: J. Blesse, president; J. Hennessey, captain; J. Burkrey, manager; C. Blesse, treasurer.

They will be ready to play any team after Mar. 18. If any team wishes to book a game phone or write to John Blesse, 638 N. East street.

JUST LISTEN TO THIS AND YOU'LL BE GLAD.

If you are considering something nice don't forget the Ford sedan. It is an all the year round car and can be used in the country as well as in the city.

RETURN FROM SOUTH.

George Dorwart and sister, Mrs. M. L. Cunningham returned Friday night from the south where they have been spending the winter months. Most of their stay was made at Pensacola, Florida.

WITH THE SICK.

Word has been received from Springfield that the Rev. Preston Wood, superintendent of the Springfield District, has suffered an attack of appendicitis and was operated on last Thursday night. His condition at the present time is reported very satisfactory.

A. D. Arnold is a patient at Dr. Day's hospital where he underwent a surgical operation. He will probably be in the hospital for a number of weeks.

Miss Helen Alcott who cut her right hand so badly with broken glass was resting easily yesterday and the prospects are that she will get along without serious inconvenience.

Charles Teele of Waverly was in the city yesterday to attend Mrs. Teele, who underwent a surgical operation Saturday morning at Passavant hospital.

Miss Flossie Jolly, who has been ill at the home of her parents on Jordan street, continues to improve.

FINE MUSICAL INSTRUMENTS.
J. P. Brown, southwest corner square has on display a fine collection of music of every kind; also violas, ukeleles, okarinas and other musical instruments.

WHY BATTERIES DON'T LAST FOREVER.

After repeated inquiries as to what the life of a storage battery should be, the subject has been covered in brief by the Willard Storage Battery Company of Cleveland. They contend first of all that its life depends upon its construction, its care and the service it receives.

"Taken all together, a storage battery well cared for costs less to maintain than any other accessory as vital. If kept charged at proper rate and filled with pure water, the life of a first-class battery averages from 1 1/2 years up.

"At the same time, a battery, however well made and well cared for, will wear out and must be renewed. It is an electro-chemical apparatus and constantly changing its condition to supply current for lamps and starter. The better the materials, care and factory service, the longer its life. Some motorists believe a battery should last indefinitely like a spring or an axle, but this belief is being overcome by the educational measures of progressive manufacturers who want their customers to know why certain facts are facts."

Wheeler and Sorrells declare the Willard Company has done much along these lines and the result is evident in the better cars batteries are receiving everywhere.

Men who appreciate the refined effect of correct color harmony will buy their new Spring Suits at WEHL'S.

EXPRESSION CONTEST AT WOMAN'S COLLEGE

In the expression contest at Music Hall Monday night Misses Helen Butler, Hazel Ingram, Lavina Jones, Mayme Kennedy, Marian James Robinson, Frances Smith and Frances Soren, will take part. The program will be as follows:

"Without the Assistance of the Ladies Aid," Anonymous.
"Dickey and Dancing School," Josephine Dodge Daskam.

FLORETH COMPANY

MORTUARY

Deja.

Ignatius Deja died at five a. m. at the Jacksonville state hospital yesterday. He for a time was a tailor in Virginia and came to the hospital last December. He was about sixty years old and leaves a wife, one son and two daughters in Peoria.

The body was conveyed to the undertaking rooms of J. H. O'Donnell on east State and made ready for burial. The funeral is to be held Tuesday at 8:30 a. m. in the Church of Our Savior and interment will be in Calvary cemetery. The Knights of Columbus are requested to attend in a body.

Clark.

Mrs. J. J. Clark died Saturday evening at her home in Arcadia at 5:10 o'clock after an illness of several weeks duration.

Mrs. Clark's maiden name was Miss Lida Petefish and her life was spent in southern Cass and northern Morgan counties. She was the daughter of the late John R. Petefish.

Besides the husband there survive one son, Charles E. Clark of Arcadia as well as two brothers, Charles Petefish and Taylor Petefish. Mrs. Clark was long a member of the Methodist Protestant church and was at all times a consistent Christian. She was 62 years old at the time of death.

Funeral services will be held at the residence Monday afternoon at 2 o'clock in charge of the Rev. C. G. Cantrell of Litterberry. Burial will be made in Arcadia cemetery.

AT STATE STREET CHURCH.
A program of special music, including violin numbers, has been arranged for the morning service at State Street church today. The program promises to be one of very special merit.

Miss Katie Clark of Concord was in the city for a few days last week, enroute to her home from Indianapolis, where she was taking treatment. She returned much improved.

The Smartest of Spring Styles

For the Purse Prudent Woman

It is not an easy matter to assemble season after season an individual line of smart Coats and Suits, but being fortunate enough to carry several nationally known lines, we have no hesitation in saying that every style is one that will make instant appeal to the woman who values style discrimination.

The Fabrics are entirely novel and embody that rare exclusiveness desired by smart women.

The Styles are extremely chic and clever. The colors simply radiate spring. And—

The Prices Are Entirely Within Reason

Our \$1.00 Waists

will emphasize our waist values. We candidly believe you'd buy these waists at \$1.50 just as readily as at \$1.00, but we adhere to our policy of value giving even though the manufacturers urge us to raise prices. You'll like these waists at **\$1.00**

Our 89c Kimonos

will strengthen your belief in our policy of value giving in certain staple lines of merchandise. These garments sell regularly at \$1.25 and \$1.50 and are positively the greatest values we have ever offered to our customers. **89c**

Our 10c Wash Goods Counters

have attracted more attention than any sale we have had of late. Fifty pieces of choice Ratines, Voiles, Tissue Gingham, Crepes and Organdies, and in addition, 20 pieces of 36 inch 25c Madras Shirtings—must clear to make room for our new spring stock, at per yard **10c**

Our Whole Stock is Bright, Crisp and New, and Your Dollars Stretch Their Furthest Limit Here.

The Grip of Jealousy

A charming story of the Old South. Those days before the War the scene of the most compelling love story ever shown on the screen. The basis of the story is a family feud, bitter and generations old.

LOUISE LOVELY, IN "THE GRIP OF JEALOUSY"

A Bluebird Photoplay every Wednesday. Admission Wednesday for these great features 10c and 5c. Will run thru the supper hour.

WOOD'S WILL CASE BEFORE JUDGE JONES

COURT INDICATES BELIEF DOCUMENT DOES NOT ACCORD WITH LAW.

Final Decision Again Taken Under Advice—Four Sections of Will Said to Violate Laws of Perpetuity.

In the circuit court Saturday Judge Norman L. Jones, who was here to wind up the business of the February term, indicated that he will likely give a decision in the James Wood will case setting aside certain sections of the document. When George Wood and others, by their attorney, Judge M. T. Layman, filed a suit against Iven Wood et al, executors of the estate, the claim was set forth that certain sections of the will are invalid because they violate the laws of perpetuity. Attorneys for the estate are Worthington, Reeve & Green, and in court Saturday they asked the privilege of making further argument and presenting further authorities, which was granted. Judge Layman also presented some further authorities.

Main Argument Four Weeks Since.

The case was argued at length about four weeks ago and Judge Jones took it under advisement, with the intention of giving his decision yesterday. He stated in court that he had come to Jacksonville with the expectation of declaring certain sections of the will invalid. These sections are the ones whereby the testator directed that portions of his property should belong to a sister and two brothers during their lifetime, and then descend to the grandchildren. Another portion bequeathed to the children of a deceased brother for life and then to their children, and all through the four sections questioned by the attorneys for the complainant there run directions for the distribution of property through a period of time beyond that complainants hold possible under the law. The estate according to the appraisement made some time since, is worth in round numbers \$225,000.

Finding Would Affect Only 4 Sections

Judge Jones said Saturday that he did not know that the arguments and opinions presented Saturday would change his mind, and that if they did not, that his opinion would be against the validity of the sections of the will mentioned. This finding would have no bearing upon Mrs. Wood's interest in the estate, since she renounced the will and elected to take one-half of the real estate and personal property in accordance with the provisions of the law. The finding also would have no effect upon a legacy of \$1,000 given the Pisgah Baptist church or upon the bequests made to Mrs. Burke and her son, L. P. Burke.

Judge Jones concluded the business for the February term and an order was entered on the docket indicating that all further business will go over to the May term.

The following docket entries were made:

Law.

Gertrude D. Duke vs Roy Dyer, assumpsit for use and occupation. Judgment in favor of the defendant and against the plaintiff in bar.

Hainsfurther Bros. vs. Joseph Peters et al; assumpsit. Default of defendant and court fixes damages in favor of plaintiff at \$37.

Elizabeth Carter vs. the Central Union Fire Insurance company; assumpsit. Suit dismissed by plaintiff on her cost.

C. M. Stawen vs S. B. Kumble, appeal. Motion to set aside order of dismissal and other orders entered in the case Feb. 5 allowed.

Chancery.

J. W. Davies et al vs. Llewellyn Davies et al; partition. Order of continuance until the first day of next term.

Builders Iron Foundry vs. Abendroth and Root Mfg. Co.; petition. Bill dismissed on motion of complainant.

Tyndall Story et al vs John H. Story; partition. Special commissioner's report of sale made and approved.

J. B. Lombard, executor of W. H. Cox estate vs Frank W. Thomas et al; bill. Leave to Illinois State Bank of Quincy to intervene as guardian of Frank W. Thomas, and leave to said guardian to amend cross bill. Same amended. Report of J. B. Lombard, trustee under the will of W. H. Cox, deceased, filed. Report as trustee of Frank W. Thomas filed. Both ordered recorded.

C. C. Schureman vs W. H. Parrish et al; foreclosure. Master's report of evidence and conclusion made and approved. Decree for foreclosure and sale. Complainant's solicitor's fees fixed at \$75.

A. M. Masters et al vs. Ella A. Masters et al; petition. Petition of A. L. French for leave to resign as trustee filed. Clerk to give notice to all interested parties of such petition, and filing of trustee's report by publication, etc. Publication to be made once a week for at least three consecutive weeks.

George Wood vs. Ivan Wood et al; bill. Hearing on demurrers concluded and decision on demurrers taken under advisement by the court.

William A. Myers et al vs Lydia Meyer et al; petition. Petition by William A. Meyer for court to assume and acquire jurisdiction over trust estate belonging to Lydia Meyer et al. Prayer of petition granted. William A. Meyer appointed trustee with bond in the sum of \$4,000.

Amos Henderson vs William Stott et al; bill for foreclosure. Master's report of distribution made and approved. Stricken.

John E. Cox vs George Cox et al; partition. Master's report approved and decree of partition. Report of

commissioners approved and decree for sale. Complainant's solicitors' fees fixed at \$266.

William Hinman vs John Taylor et al; partition. Cause referred to master. Report approved and decree for sale. Solicitors' fees fixed at \$450.

Mary E. Riggs vs. Joseph Riggs et al; partition. Master's report of distribution made and approved. Stricken.

Flora B. Thompson vs estate of Fenton Thompson; partition. Master's report of distribution made and approved. Cause stricken.

Charles C. Maginn, individually and as executor, vs. Thomas Jarret, Ada M. Maginn et al; partition. Master's report of distribution made and approved. Cause stricken.

W. G. Goebel, trustee, vs. Gravel Springs Co.; foreclosure. Master's report of evidence and conclusions made and approved. Motion by complainant for appointment of receiver. A. A. Curry appointed receiver upon filing bond in the sum of \$5,000 and decree for foreclosure sale. Complainant's solicitor's fees fixed at \$700.

W. R. Ham et al vs. R. C. Ham et al partition. Master's report for sale made and approved.

Ella Davis et al vs. William Duvendack; partition. Master's report of sale made and approved.

PHI ALPHA SOCIETY.

Phi Alpha Literary society of Illinois college in regular session Friday night at Beecher hall, passed resolutions of sympathy for John Capps Irwin, whose father died recently in Washington, D. C., and ordered flowers and a letter to be sent the family. Ralph Newell, who has been confined to his room by measles, was also remembered with flowers. The following program was rendered:

Essayists—Bryan Underwood, "Athletics;" Clarence Goveia, "The College Man's Religion."

Select Reading—Bryan Ennis.

Orator—Oscar Zink, "Science in the College."

Extemporizer—Henry Hinton, "The Black Jitney."

Question for Debate—"Resolved, that the tariff should be regulated by a tariff board appointed by the president."

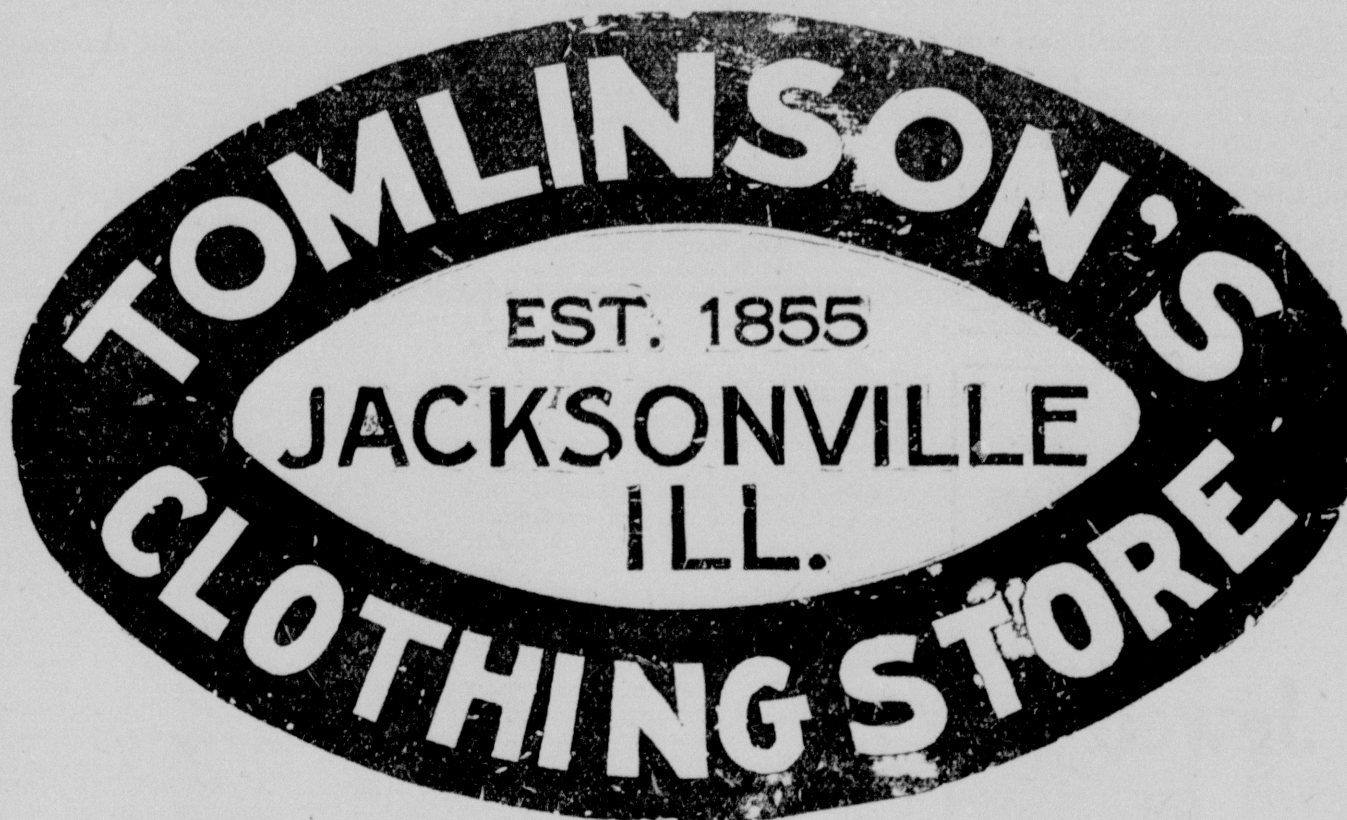

The affirmative debaters were Bryan Ennis, Floyd Davis and the negative, Russell Jean and Robert Nesmith. The decision was awarded to the negative and the house voted the merits to the same side.

ELLSWORTH HEMBROUGH IN SATISFACTORY CONDITION

A telephone message from J. D. Hembrough in Kansas City yesterday brought the welcome news to his family that Ellsworth Hembrough, accidentally wounded by a revolver shot Thursday, had undergone a successful surgical operation. The bullet which had lodged in the upper part of the skull was removed and the surgeons declared that Mr. Hembrough is in a satisfactory condition as could be expected.

R. B. RIMBEY HOLDS COW SALE AT MURRAYVILLE

R. B. Rimbeley has been engaged in the dairy business at Murrayville for several years held a sale Saturday at Murrayville and disposed of all of his cows and calves. Seventeen cows and a number of calves were sold and averaged \$63.40 per head. There was a large attendance and Mr. Rimbeley was well pleased with the prices received. C. J. Wright was the auctioneer and W. B. Wright, clerk. Mr. Rimbeley expects to retire from active business and will make his home in Murrayville. The following were the purchasers and prices paid:

George Worrel, two cows at \$61 and \$83; W. H. True, cow at \$76 and Peter McCabe, cow at \$66. J. C. Richards paid \$63 for a cow and calf. J. A. Bacon paid \$56 for a cow and Henry Tarzwell purchased one for \$50. One cow sold to Peter Wilson for \$74 and A. J. Johnson bought two cows at \$60 and \$70.50. C. A. Grider, one cow at \$54.50 and Ellis Crain of Woodson one cow at \$79. Mr. Stone of White Hall bought two light weight cows at \$41.50 and \$46. Ellis McCracken purchased one at \$72.50 and Rev. Mr. Marsh one at \$50. B. C. Clarkson purchased a thoroughbred Holstein bull for \$75. John Ray purchased two calves at \$12.50 each and C. E. Irlam bought two at \$10 each.

Edward Farmer of Sinclair had occasion to visit the city yesterday.

HIS HORSE DIED ON THE WAY.

A day or two since, Rev. Charles Fairchild, pastor of the Concord circuit of the Methodist Protestant church and Rev. Mr. Haverfield, president of the northern Illinois M. P. conference were visitors at the home of Mr. and Mrs. Elmer and after breakfast started from Concord and on the way Mr. Fairchild's horse was taken sick and died in a short time. The animal was a good one and the loss will fall heavily on the reverend gentleman.

FOR COMMISSIONER.

I hereby announce myself as a candidate for re-election as road commissioner, road district No. 8, election April 4.

Charles S. Magill.

I hereby announce myself a candidate for road commissioner in District Eight subject to the will of the voters April 4th.

Irwin Weiborn.

Cleary will sell a choice lot of horses, draft mares, Jersey, Short Horn and other cows, heifers and steers, pure bred Duroc Jersey sows and boar and a long list of farm vehicles, implements, Rose Comb Red chickens, extra fine, and other property.

J. H. S. WILL GRADUATE SEVENTY-EIGHT PUPILS

SIX SPEAKERS ANNOUNCED FOR HIGH SCHOOL COMMENCEMENT

Good Averages Reported for Senior Class as a Whole—Carl Tendick and Gladys Ferreira Receive First and Second Honors.

The Jacksonville high school will graduate this year a class of seventy-eight and tho there remain several students whose average leaves the matter of their graduation slight in doubt average grades for the year so far are very good, and the number of pupils who have made satisfactory percentages includes by far the largest portion of the class. The three honor pupils are Carl Tendick, Gladys Ferreira and Isabel Woodman. These hold the highest rank of those who have been in school here for the full four years. Miss Mary LaRue, with an average of 93.80 has not attended the school long enough to qualify for honors. Carl Tendick's average was 91.73, Miss Ferreira, 91.13 and Miss Woodman's 90.81. From the remainder of the class the student body elected three additional speakers. These are Alene Dugger, John Furry and John Martin. Pupils who have been in the high school for at least three years were eligible for election.

The big day this year in high school activities will be Friday, May 19, fixed upon as the date for the Western Illinois High School League track meet and declamatory contest and the J. H. S. senior play. The declamatory contest will take place in the morning, the track meet in the afternoon and the senior play will be given at night.

Announcement of the senior play cast as made by Miss Jeanette Taylor of the department of English, contains the following names: Dawson Darley, Dorothy Rogerson, Gladys Andre, Helen Strandberg, Helen Obermeyer, Esther Davis, William Floreth, Russel Pinkerton, James Haigh, Fount Andrews, Fred Leach. William Floreth and Helen Strandberg have leading parts.

The averages of sixty-six seniors follow:

Mary LaRue, 93.80.	Carl Tendick, 91.73.
Alene Dugger, 91.29.	Gladys Ferreira, 91.13.
Emil Wells, 91.13.	Isabel Woodman, 90.81.
Robert Priest, 90.64.	Elizabeth Hembrough, 90.28.
Dawson Darley, 89.43.	Lola Markille, 89.29.
Harry Howard, 89.23.	Fred Leach, 89.23.
John Furry, 89.12.	Ruth Fenstermaker, 88.57.
Estella Schofield, 88.23.	Walton Bland, 87.85.
Helen Paschall, 87.55.	Dorothy Rogerson, 87.44.
Grace VanHouten, 87.41.	Wayne Gibbs, 87.11.
Jean Coulter, 87.02.	Clarence Siegfried, 86.86.
Walter White, 86.86.	Esther Agnew, 86.58.
Edna Hackett, 86.56.	Edward Tomlinson, 86.44.
Mabel Malone, 86.42.	Catharine Carter, 86.29.
Gladys Andre, 86.25.	Helen Strandberg, 86.23.
Pearl Allison, 86.19.	Ethel Cruise, 86.05.
Frank Hughes, 86.03.	Helen Obermeyer, 85.75.
William Bartlett, 85.68.	Aileen Fitch, 85.65.
Frank Robinson, 85.62.	Elsie Reed, 85.56.
Zelda Benson, 85.34.	Richard Hillerby, 85.25.
Lucille Bolton, 85.18.	Marceline Cowgur, 84.71.
Helen Halthman, 84.40.	Lloyd Cully, 84.36.
Verans Coover, 84.35.	Edna Leake, 84.30.
Esther Davis, 84.19.	Dallas Hagan, 84.14.
Nellie Priest, 84.12.	Ruby Molohon, 84.00.
Helen Alcott, 83.84.	Hilda Rose, 83.71.
John Martin, 83.52.	William Floreth, 83.34.
Max Boxell, 83.23.	Florence Jordan, 83.07.
Alice Johnson, 83.00.	Russel Pinkerton, 83.00.
Clyde Hembrough, 82.91.	Marguerite Corrington, 82.52.
James Haigh, 82.44.	Rhoda Wheeler, 82.44.
Ruth Fitch, 82.41.	Bertha Roberts, 81.95.
Reon Marshall, 81.44.	Fount Andrews, 80.71.

SPORTS HERE AND THERE

Al Baldwin returned last week from Kansas City where he fought Charley Arensen. Arensen was given the decision on points. Baldwin had fought and won a ten round bout the night before he fought Arensen and probably was a little stale. In talking with the writer Baldwin said that he thought the bout should have been declared a draw.

Baldwin a few weeks ago knocked Arensen out in the ninth round in Kansas City. At that time Baldwin knocked Arensen cold in the seventh round but the knockout came about ten seconds before the round ended. He was carried to his corner and with the minute rest and the work of his seconds came back strong. The Kansas City papers at that time said that Baldwin outclassed Arensen.

The result of the fight a few nights ago was probably the old story of the favorite son. It used to be that when an eastern fighter went to California to fight a native fighter the only way he could win was to knock his man out. It seems that the same condition exists in Kansas City. Baldwin expects to get another bout with Arensen and is confident that he will bring home the bacon. We are believing the same way until they show us.

The big league teams are now in the midst of their preliminary spring training. Of course the war correspondents with the teams are sending in some great stories of the ability of the recruits. The veterans are not lumbered up yet. When they get the kinks out they will begin to take the places of the rookies and the latter will be dropped by the managers in various wayside cities of the minors. When the bell rings the fans will find most of the old timers on the job and maybe a recruit or two who has proven a jewel or who looks to have the making of a major league player.

The game of baseball is a great game. Each fall when the minor league season closes the big leagues begin drafting players who have looked good to the scouts thru the summer. Each fall hundreds of minor league players are signed by big league teams. They report in the spring and are hauled in the deluxe trains to the training camps. Here the workout with the veterans and for a few brief weeks if they show anything get their names in all of the big cities dailies. It is surely the gay life but for most of them it doesn't last. They are sent back to the minors. Some for further seasoning with a string attached, others to stay.

It is a good thing, however, this chance for the recruit. It opens to him the possibilities of the national game. If he has any sense at all he will benefit by his experience and

intercourse with the smartest managers and ball players in the world. Then if he has the sense and the latent ability he will go back to the minors with the determination to improve so that the next time he goes up he will stay. If he never goes up he will be a better player in the lower circuit and the game will have been benefited as well as the player by the brief excursion into the major league ranks.

There is one thing that Smithson of Merritt who is trying out with the Detroit Tigers can rest assured of. If he can pitch good enough to fool Ty Cobb, Sam Crawford, Veach and the rest of the Tiger band he need not fear any other team in the American league.

One doesn't hear much of Ty Cobb these days. In fact to read the papers one would judge Ty Cobb was the very best busher insofar as getting his name in the paper. However, when the bell rings Cobb will be on the job and unless all signs fail he will again be hailed as the greatest player of all time.

If Rowland finishes up as well with the White Sox this year as he did last he will be almost performing a miracle. Rowland while he has some great players still lacks some important cogs in his machine to produce a pennant winner. In the first place much depends on the pitching staff. On paper the Sox staff does not look as strong as it did last year. Even if Benz, Scott and Russell come thru and gain their old time form Rowland will still need at least two, if not three more to help them out. But the main weakness of the Sox and one that has been apparent the last two years is third base. Rowland may make a third baseman out of Weaver and he may find that Terry the recruit from the Pacific coast will fit in the hole at the far corner. However, we do not believe that either will measure up to the class necessary to complete a major league infield. Then too the Sox have been weak at first base. They have a recruit who is a complete major league infield. Then there is Fournier a mighty hitter, but an ordinary fielder and John Collins, likewise a good hitter but a mediocre fielder. It is probable that Rowland will be forced to place one of these men at first before the season is many days old. His outfield has class. If Joe Jackson comes back this year he will prove a tower of strength to the Sox while Felsch, Eddie Murphy, Fournier and Collins are all good men for his assistants. With Sealk in form the Sox have the best catcher in the American league. So it seems to be up to the pitchers and to the development of a third baseman and a first baseman if the Sox wish to grab off any world's series money.

MAVERICKS

Between Carranza and the president, there exists one grand idea. But we fear it won't materialize. In the capture of Mr. Villa.

Speaking of spring we haven't noticed any Bock Beer signs as yet.

Even the pursuit of Villa has its redeeming features. We haven't had to read any notes to Germany recently.

If the war lasts much longer imported frankfurters and limburger cheese will become great delicacies.

There is considerable difference in the salary paid for different kinds of fighting. An American soldier gets thirteen dollars a month and his board. Jess Willard gets \$47,500 for fighting thirty minutes.

Since the unpleasantness started in Mexico we are beginning to appreciate the wonderful and weird pronunciation the average American can give to Spanish names.

Poet—Sir, I have here a poem that should fire the heart of every true American. I would like to sell it to your paper.

Editor—You say it will fire?

Poet—Yes sir.

Editor—Boy, show the gentleman to the boiler room.

The German troops before Verdun disappeared like melting snow. But little cared the Kaiser, He sent a million more.

According to the news that has sifted thru the censorship, Villa is safe in his mountain retreat. Evidently he is going to practice the administration policy of the past three years, "watchful waiting."

If General Carranza's troops can't catch Villa in Mexico it does not seem that they would have much chance of capturing him in the United States.

The Germans are finding the taking of Verdun a harder task than they anticipated.

Usually the people are permitted to have what they ask for. Such does not seem to be the case in the present discussion as to the oiling of paved streets.

BIG BOWLING TOURNEY

AT NEW YORK.

New York, Mar. 18.—The largest bowling tournament in the East is the National, which opened today at the Grand Central Palace. Two thousand of the crack pin splitters of the East are entered and the contests will continue until April 2.

ATTORNEYS FOR PRICE CLAIM NEW EVIDENCE

May Aid in Gaining Freedom For
Minnesota Man Convicted of Killing
His Wife by Throwing Her
From Cliff.

Minneapolis, Minn., Mar. 18.—New evidence is said to have been gathered by attorneys for Frederick T. Price, convicted of the murder of his third wife, Mary Fridley Price, as the result of her death from a fall from a cliff in the suburbs of the city. That this evidence is sufficient to free the convicted man and break down the weight of evidence given by Charles D. Etchison, confessed aid of Price in the murder, is the belief of Price and his relatives. The court following the conviction of Price in January, allowed until March 20, next Monday for the filing of exceptions to ruling made at that trial, and these exceptions will come before the court on Monday.

History of Cliff Mystery.

Nov. 27, 1914—Mary Fridley Price received gift of \$10,000 from her father.

Nov. 28—She was killed by fall from 40 foot cliff.

March 22, 1915—Husband filed suit against city of Minneapolis for damages for \$7,500.

July 12—Price married fourth wife at Kansas City.

Oct. 29—Price dismissed suit against city when legality of marriage with dead woman was questioned.

Nov. 12—Price arrested on bigamy charge on ground he was never divorced from first wife.

Nov. 20—Probate Court ordered Price to surrender wife's estate.

Nov. 20—Price and Etchison were indicted for murder.

Dec. 1—Price surrendered, and Etchison was arrested at Washington, D. C.

Dec. 4—Etchison confessed to his implication, and accused Price of killing wife.

Jan. 13, 1916—Price convicted of the murder.

The quest for new evidence in support of Price's contention that his wife met her death by an accidental fall from the cliff while he and Etchison were fixing the engine of the price automobile, has been financed by a brother of Price. Attorneys and detectives have made a close hunt for persons who were near the scene of the fatality on the night of November 28, 1914. The career of Etchison, Price's friend and accuser, has been thoroughly studied. Just what the nature of the alleged new evidence is has been carefully guarded that it is strong enough to bring about a new trial for Price, and the attorneys believe he would be acquitted at a second trial.

The Price case is one of the most sensational mysteries of this section of the country. The has and of the woman who, after receiving a large gift from her father, was killed by a plunge from the cliff, was not indicted for over a year after the tragedy. The suspicions of the dead woman's relatives were aroused, and detectives made a thorough investigation, in conjunction with the police.

Price's marital affairs were carefully combed, and it was found that the woman who met her death at the cliff was the third wife of Price. It was claimed that Price had never been divorced from his first wife. When this question was brought into Price's suit against the city, he promptly dropped the case. It soon developed that Price, some eight months after the cliff tragedy, married a fourth wife, Carrie Olson Price, at Kansas City.

The victim of the cliff tragedy came of a prominent Minnesota family, and her mysterious death was the subject of much discussion. The authorities had grilled Price and his friends Etchison, who was in the auto party on the fatal night, and their first stories fitted perfectly to the theory of accidental death.

When Price and Etchison were indicted for murder by the grand jury last November, there was much speculation as to the nature of the evidence. It was while Etchison was being taken from Washington to Minneapolis, that the authorities secured from him in Chicago a full confession of his own part in the tragedy and his charge that Price hurled his wife over the cliff to the rocks below. He told the officers, and later testified at the trial, that he heard sounds that led him to believe Price was beating his unconscious wife over the head, crushing her skull.

Etchison, on whom the state relies for a second trial, if one is granted, is in jail awaiting trial for complicity in the crime.

PITTSBURG CELEBRATES

Pittsburg, Pa., Mar. 18.—The centennial anniversary of the incorporation of Pittsburg as a city is being celebrated today. The city and county are joining in the laying of the cornerstone of the City-County building. Tonight the Western Pennsylvania Historical society will hold a banquet, at which Governor and Mrs. Brumbaugh will be guests, with other notables from public and business life. Next October, a great celebration in observance of the centennial will be held, in which pageants and exhibits will be features.

Amos Coker of the east part of the county called on city friends yesterday.

WOMAN'S COLLEGE NOTES.

The Art Exhibit now being conducted by the College has already attracted a great deal of interest. The collection is by far the finest one that has ever been held in the city of Jacksonville, being of superior grade to the one which was held last year and which attracted so much favorable comment.

The class in Ornithology is taking field trips every Monday morning. This last Monday on the trip made out toward Nichols Park twelve species of birds were seen, among them being the Junco, Logger headed Shrike, or Butcher bird, Meadow Lark, Song Sparrow, Blue Bird, Robin, Flicker. By the use of the field glasses which the class now have the identification of the various birds is made much easier.

Col. G. O. Shields in his lecture Monday night told of the efforts being made to preserve the wild birds and game of the country, of the great damage that was being done to farmers thru the work of the insects, and he showed conclusively by the lecture and the illustrations he gave that this damage could be materially reduced by saving the wild birds. His lecture was most interesting as well as entertaining.

The third year Academy students entertained the fourth year Academy students Saturday night at the Colonial Inn. A splendid dinner was served and a most delightful time was enjoyed.

The Expression contest will take place Monday, March 20th in Music Hall. This is conducted under the auspices of the Wesley Mathers contest in declamation. A prize of seventeen dollars will be awarded to the winner of the first place and eight dollars to the winner of the second. Eight contestants will participate.

The concert given by the college orchestra last Thursday night was a most successful one in every way. The work of the orchestra shows the careful training of the director and reflected great credit on the work of the College of Music. A large audience was present and every one was most enthusiastic in praise of the concert given.

Miss Mary Violet will graduate in Voice this coming June and most successfully in the home talent play given by the Elks on Monday night.

CONSERVATORY NOTES.

A recital will be given by members of the faculty and advanced students in recital hall next Thursday evening, March 23rd, at eight. Those appearing on the program will be Misses Marguerite Butler, Ruth Duncan, Virginia Ballard, and Messrs. Minger, Dean Cochran and Harry Beckman. The public is cordially invited to attend. The program will be published later.

Miss Rebecca Scheibel made a most successful appearance in concert at Jacksonville last Thursday evening. Miss Rebecca Hallman, student under Mr. Kritch, gave a recital of her pupils in violin on the same evening, assisted by her brother Francis, who played a solo, Paderewski's Polonaise in B major, and the accompaniments for the students as well as for Miss Scheibel.

Miss Inez Paves is playing a piano solo at the Epworth League meeting in Grace church Sunday evening, March 19th.

Mr. Earl Post is starting a solo at Westminster church Sunday morning, March 19th.

There will be a student's recital next Friday afternoon, March 24th. The public is cordially invited. Program begins at four.

The Phi Omega society will hold its next meeting on Tuesday afternoon, March 21st, at four. Current events, Dorothy Hiltz, violin solo, Hazel Ashbaugh piano solo, Mary Daniels, vocal solo, Rebecca Scheibel, paper, Jane Ninde.

A Little Blossom To Delight the Home

And Now a Splendid
Remedy Will Be of
Great Help to the
Expectant Mother

When it is known that in the near future the home is to be blessed with a new arrival the first thought should be "Mother's Friend." This is an external remedy gently applied over the stomach muscles. It makes them firm and pliant, they expand naturally without undue strain. It removes from the nerves those influences which are responsible for much of the pain incident to the period of expectancy. It is for this reason that much of the distress such as morning sickness is avoided. All prospective fathers should see to it that the expectant mother is provided with a bottle of "Mother's Friend."

If more convenient get a bottle on your way home. Remember that many of our most valuable aids to health and comfort and safety are only such when our knowledge of them is put into action. Begin early to use "Mother's Friend" and you will soon become one of the most helpful influences ever devised for avoiding much of the distress incident to coming motherhood.

The directions are simple. Get it at any drug store. It is applied by the expectant mother herself. It penetrates deeply and affords quick and splendid relief in a most gratifying manner and reflects a physical betterment to the nervous disposition of the baby. Don't fail to get a bottle of "Mother's Friend" today and then write Bradford-Ridgely Co., 818 Lamar Bldg., Atlanta, Ga. for a pretty little book brimful of information for expectant mothers. It is a delight to read it.

BAD DREAMS ARE SYMPTOMS

Health the Cause—Many
Alarming Symptoms of Women's Ailments—How Cured.

Paterson, N. J.—"I thank you for the Lydia E. Pinkham remedies as they have made me feel happy and healthy. Some time ago I felt so run down, had pains in my back and side, was very irregular, tired, nervous, had such bad dreams, did not feel like eating and had short breath. I read your advertisement in the newspapers and decided to try a bottle of Lydia E. Pinkham's Vegetable Compound. It worked from the first bottle, so I took a second and a third, also a bottle of Lydia E. Pinkham's Blood Purifier, and now I am just as well as any other woman. I advise every woman, single or married who is troubled with any of the aforesaid ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles."—Mrs. ELISE J. VANDER SANDE, 7 Godwin Street, Paterson, N. J.

Women suffering with any form of female ill, or any symptoms that they do not understand, are invited to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential), and receive advice wholly free of cost.

DON'T FUSS WITH MUSTARD PLASTERS!

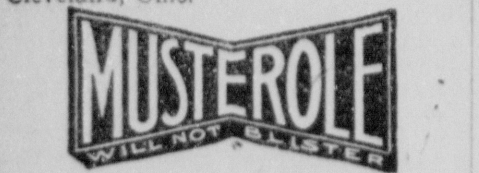

Musterole Works Easier, Quicker
and Without the Blister

There's no sense in mixing up a mess of mustard, flour and water when you can so easily relieve pain, soreness or stiffness with a little clean, white MUSTEROLE.

MUSTEROLE is made of pure oil of mustard and other helpful ingredients, combined in the form of a pleasant white ointment. It takes the place of the out-of-date mustard plaster, and will not blister!

MUSTEROLE gives prompt relief from Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

DECLINING BIRTH RATE IN EUROPE BASIS OF DISCUSSION

British Authority Sees Reason in
Increasing Number of Women
Who Follow Industrial Pursuits.

Percentage of decline in birth-rate in various countries during the past thirty years:	percent
Russia	1
Austria	12
Italy	13
Finland	13
Germany	18
Holland	19
Denmark	12
Switzerland	12
Norway	16
Sweden	14
England	25
Belgium	21
France	21

Note: Figures for the entire U. S. not being available, those for Boston are added for comparison, covering 20 out of the thirty years.

London, Mar. 18.—The subject of the decline of the birthrate in European countries is discussed at length in the Journal of State Medicine by Sir Thomas Oliver, of the University of Durham, the famous British authority on occupational diseases.

"The increasing absorption of young women into spheres of commercial and industrial activity," he writes, "while tending to lighten the burden of parental obligation, is creating problems which in their final issue concern the future of the race. As effects of the withdrawal of female life into industry, mention may be made of the weakening of the home instincts, a love of independence, and a growing taste for pleasure and excitement, so that if marriage is entered upon, there is a growing unwillingness to accept the duties and responsibilities of motherhood."

In his conclusion, Sir Thomas comes directly at the civilization of the times. He points out how local expedients like industrial legislation are purely temporary, how checking the sale of drugs and such methods are merely skimming the surface, and calls attention to the fact that evolution is at work, and that the race that for its own sake seeks to set aside the natural courses is merely playing a brief game where Nature is sure to win. The root of the difficulty of which decrease in birth rate is a symptom lies deep and may perhaps presage the decline and fall of another civilization.

When the German birth rate began to show material decline, the government investigated. It was found that the foreign element reproduced at a higher rate, and this being true in Poland with its own language and national characteristics, it was evident to the authorities that there would be raised problems of politics, government and religion. The Germans likewise determined that the greater falling off was among the better classes. There were attempts to correlate the greater losses with the university and educated classes, the element which is most essential to conserve.

The problem that the nations face is to avoid the fate of Rome and Athens. It is claimed that these great civilizations fell because of the insufficient number of children born within the leading races.

Since the battle of Waterloo, a century ago, France has increased one third, Great Britain and Ireland have doubled in population, Germany has quadrupled hers and Finland has increased three times. Italy stands at one half more than in Napoleon's day, and Austria has increased 150 per cent.

Dr. Oliver furnishes some interesting figures, on authority of Frick regarding the population of ancient Rome and modern Italy. The number of inhabitants at 22 B. C. is set at 22,000,000. By 2 A. D. it was less than half this figure, and decreased to 5,000,000 two centuries later. At the opening of the second Punic war, there were 270,000 citizens fit to bear arms and at the time of Augustus there was doubt whether 45,000 men could be raised. This reduction took place during a long period of peace, and is an example of a nation which has attained a high position in civilization and then throws aside those implements which have enabled her to gain this position.

"A nation's worth," writes Sir Oliver, "like a nation's hope, rests not necessarily on one class of society but upon the members of all classes who are thrifty, who are leading normal lives and who are discharging simple duties to the family and the state."

PROTECT THE SHADE TREES.

They Should be Wrapped With Some Kind of Tanglefoot to Prevent the Ascent of Insects.

Wesley P. Flint, assistant state entomologist, was in the city recently and earnestly recommended early action looking toward saving the shade trees of the city, especially the elms. He recommends smoothing the bark slightly where it is very rough and then wrapping a strand of binder twine about the trunk and above it applying coal tar or a prepared tanglefoot which is made in commercial quantities. He says the wet weather of last year destroyed the pests to a great extent but there are many left and they may be kept from ruining the precious trees by the method mentioned but the work should be done very soon as the warm weather will soon set the insects to work.

VALUABLE PRODUCTS NOW MADE FROM CHERRY PITS

Specialists Find Wasted Cherry Juice
and 1600 Tons of Pits Thrown
Away at American Canneries Will
Yield Oils and Cattle Feed.

Washington, D. C., March 18.—Sixteen hundred tons of cherry pits, now a source of annoyance and expense to canneries, can be made to yield two valuable oils and also a meal for feeding cattle, according to specialists of the U. S. Department of Agriculture. In addition 105,000 gallons of cherry juice now wasted in seeding cherries can be turned into desirable jelly and sirup, or even into alcohol. A saving of these valuable by-products from cherry canning may make possible the domestic manufacture of substitutes for almond oil and bitter almond oil, now imported, and at the same time establish a new industry in the cherry packing districts of the North Atlantic, North Central, and Western States.

The specialists, however, have not yet carried their work to a point where they can say that the converting of this juice and the cherry pits would be a profitable side industry for the ordinary or smaller cannery. In cases where a number of canneries are operating within a reasonable distance of one another, the specialists, however, believe that the waste products could be sent to a central cooperative or other plant at small cost and there utilized to advantage. Studies, however, are being carried on to determine whether means can not be devised for making these waste products profitable also when handled on a small scale.

Some time ago there was similar investigation of the use of peach and apricot pits for making oils and meals, and a commercial enterprise has been established in California for dealing with these products. The Department has published a bulletin on this subject and also one dealing with the utilization of raisin seed from the seeded raisin industry. It was found that many tons of raisin seed had considerable fruit adhering to them which could readily be turned into a very desirable raisin sirup for the use of confectioners and others. After this pulp had been used it was found that an oil useful in the arts could profitably be pressed from the seed, and experiments are under way to determine whether the crushed seed could not be used to advantage in feeding stock.

The following description of these products, and methods which have been developed for making them, are taken from Professional Paper 350, "The Utilization of Cherry By-Products," by Frank Rabak, Chemical Biologist, Bureau of Plant Industry.

Fixed Oil From Cherry Pits
The kernel of the pit, as long as been known, contains a considerable quantity of oil. Investigations recently conducted show that the oily constituents of the kernel can be converted into a fixed oil much like almond oil, and a volatile oil practically identical with oil of bitter almonds. The residue after these oils are extracted shows on analysis ingredients that may make it a practical cattle feed similar to linseed cake.

The fixed oil is the most important by-product of cherry pits. It has a golden-yellow color and a pleasant nut-like taste and odor. In character it is so closely related to imported almond oil that it is believed to possess similar possibilities in the commercial manufacture of drugs, oils, and soap.

If the pits of all domestic cherries, now thrown away at canneries, and the pits extracted from imported cherries, were processed in this way it is estimated that they would yield 320,000 pounds of fixed oil worth in the neighborhood of 20 cents a pound. The best quality of this fixed oil is extracted from the kernels in hydraulic presses. The shells of the pits are first cracked in a mill and uncrushed kernels separated with sieves. The oil is then pressed out from the meats. In a laboratory experiment the kernels yielded 21 per cent of fixed oil under a pressure of 2,750 pounds to the square inch. On a commercial scale, however, with presses equipped for heating the kernels under pressure, it is believed that 30 per cent or more can be obtained. The oil also can be obtained by grinding the pits and extracting by means of solvents.

Volatile Oil. The second product, remains in the pressed cake after the fixed oil has been extracted by pressure or by solvents. The volatile oil is then secured by chemical means and distillation. In the experiments the oil was obtained at the rate of nearly 1 pound for every 100 pounds of residue treated. It is estimated that 6000 pounds of this volatile oil could be obtained if all the cherry pits handled at canneries could be used.

The value of this by-product, based on the current prices for the very similar imported bitter almond oil, would be in the neighborhood of \$54,000.

Press Cake. The press cake left after both fixed and volatile oils have been removed, is believed to contain substances which may make it a desirable stock food. Its most important constituents, as shown by analysis, are fat; protein, including nitrogen compounds; and sugar and other carbohydrates. The protein amounts to 30 per cent and in this the cake compares favorably with other stock foods. If cherry kernel meal proves in practice to be as good for feed as the laboratory analysis would indicate, the annual value of this product would be about \$12,000.

Cherry Juice. The 105,000 gallons of cherry juice wasted each year in the canneries, the experiments show, would, if collected and treated produce

85,000 gallons of desirable jelly or a large quantity of table sirup, or could be made to ferment and produce alcohol. In the experiments a cherry jelly, bright red in color and with a fruity odor, was made by concentrating the cherry juice with cane sugar in a vacuum. A small amount of gelatin was then added and the mixture allowed to cool. Other processes in which the concentrated juice is heated with pectin or fruits rich in pectin, the investigators believe might produce even better results.

The juice also could be made into some 21,000 gallons of an agreeably flavored table sirup by neutralizing the acid in the filtered juice with milk of lime and concentrating it by evaporation and then settling or filtering out the lime compounds. The cherry juice, if fermented by the addition of yeast and then distilled, can be made to yield 36 per cent of absolute alcohol or about 5,000 gallons.

WAVERLY.

The Lincolnian Girl basketball team again won over the Washingtonian Girl Team Friday night by a 8-6 score. The Washingtonian boys put one over the Lincolnian boys 16-11.

A free stereopticon lecture was given at the Christian church last night. It was given by Mr. Fred Kline of the National Benevolent Association, on the work that is being done for the widows, orphans and aged.

The Amateur Musical club gave a St. Patrick's party at the home of Frank Coyle Friday night. The evening was spent in games and music and at a late hour refreshments were served.

The Household Science club met Friday afternoon at the home of Mrs. W. R. Turnbull.

The Magazine Club met Wednesday afternoon with Miss Lucy Carter. Mrs. E. K. Blain gave a paper on "The American Newspaper."

Wilson Smith spent Wednesday and Thursday of this week in Springfield at the auto show.

Prof. L. W. Ragland and son Nugent spent Saturday in Decatur on a business trip.

Other Waverly people who attended the auto show in Springfield this week were: Mayor W. R. Turnbull, Ray C. Mitchell, Carl Blair and Dr. W. H. Allen.

The Eastern Stars held a dinner and supper Thursday in the Masonic hall to pay for a new piano, which they have just purchased.

Miss Jess Harding of South Jacksonville is spending the week end with Miss Estella Bourn, north of town.

PAIGE

The Standard of Value and Quality

Approved—by Thousands of Users

As we remarked several weeks ago—"The Paige 'Six 46' is a good car—not merely because we say so—but because it's owners have definitely established this goodness in the grueling tests of more than a full year's road work."

If you stop and consider the matter for one minute, you will agree that no automobile can be termed a success until it has been tried and approved by owners.

Factory tests are all right—and very necessary so far as they go.

But a car only proves itself under the strain and stress of day in and day out service.

So, there is one little point that it may be well for you to bear in mind.

This year there are a number of "experimental" six cylinder cars on the market.

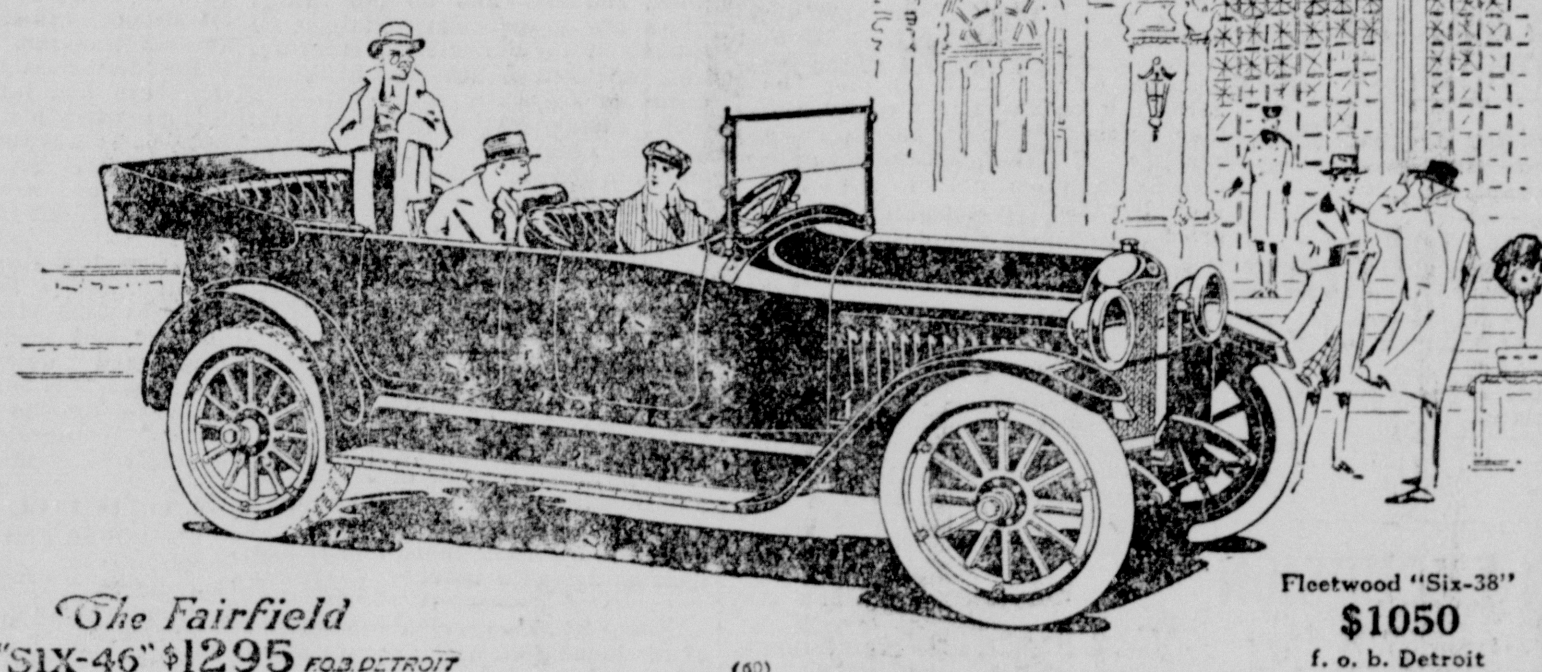

These cars, with their new "theories" and new engineering features, may—in time—prove altogether practical in every way.

But until that time comes—until these sixes have been thoroughly "tried out" in the hands of users—the prudent man will be inclined to buy the car with a tangible record of accomplishment behind it.

The Paige "Six 46" is an eminently safe automobile investment.

Paige-Detroit Motor Car Company, Detroit, Mich.

THE IMMIGRANT PROBLEM IN THE COLLEGES

Social work among immigrants is assuming special importance as a college subject, according to the Bureau of Education of the Department of the Interior. Fourteen institutions are now offering special courses which treat the subject of immigration, the few of these have as yet given much attention to the practical problems of what to do with the immigrant as a man and a citizen. Sixty-nine institutions treat the subject incidentally in connection with courses in economics, history and sociology.

In order to help in the present urgent demand for Americanization service for immigrants, the Bureau of Education has had prepared a syllabus entitled Professional Course for Service Among Immigrants. Some of the topics treated are as follows: The Incoming Tide and its Distribution; Legislation and Restriction; Employment; Standards of Living; Education; and Ideals and Methods in Americanization Work.

In view of the interest shown by colleges in the subject of immigrant education, the Commissioner of Education has offered to give assistance and advice with respect to courses of study and methods to any colleges or universities planning to introduce courses in training for leadership in Americanization service. The Division of Immigrant Education in the Bureau has centered its attention upon the problems connected with the education of immigrants and the inculcation of American civic ideals. Dr. F. E. Farrington of this division declares:

"American colleges and universities are more and more awakening to the necessity of touching modern life on its dynamic side; of inspiring and initiating social progress, and of training leaders in the work of civic uplift. Here is a field which opens up almost limitless possibilities in the way of social service. One needs, however, a peculiar sympathy for and a specific knowledge of the foreigner, appreciation of his limitations and his possibilities, as well as a realization of what he can contribute to our economic, ethical, and spiritual progress when properly assimilated, and what grave dangers he can also bring if we fail to imbue him with our rational ideals. The fields are already ripe unto the harvest, but training and competent leaders are few. Letters have been received at the Bureau of Education stating the fact that evening-school classes for foreigners have been given up on account of the lack of trained principals and teachers to handle this problem."

"Upon our colleges and universities, therefore, devolves the responsibility of preparing these workers, of giving them breadth of vision, and catholicity of purpose, in short of training them for their tasks."

Alcohol and Pneumonia.

The United States Public Health Service brands drink as the most efficient ally of pneumonia. It declares that alcohol is the handmaiden of the disease which produces ten per cent of the deaths in the United States. This is no exaggeration. We have known for a long time that indulgence in alcoholic drinks is peculiarly susceptible to pneumonia. The United States Public Health Service is a conservative body. It does not engage in alarmist propaganda. In following out the line of its official duties it has brought forcefully to the general public a fact which will bear endless repetition. The liberal and continuous user of alcoholic drinks will do well to heed this warning, particularly at this season of the year when the gruesome death toll from pneumonia is being doubled.

THIS DATE IN HISTORY.

Mar. 19.
1355—Pressing of seamen into the British navy was begun.
1814—Rheims, in France, was taken by the Russians.
1865—Pres. Lincoln issued proclamation for arrest and court martial for supplying arms and ammunition to Indians.
1877—First Turkish Parliament opened at Constantinople.
1886—Geronimo and his band surrendered in Arizona.
1888—Morocco refused the demands of the United States.
1895—England demanded reparation from Nicaragua for expulsion of consul.

1913—Constantine was proclaimed King of Greece, following assassination of father.
1914—Labor Party won sweeping victory in Union of South Africa.

1915—THE WAR.
Russians occupy Miel, Prussian port on the Baltic.
Botha defeated the Germans in German Southwest Africa.

ADJUSTING COAST RADIO LENGTHS.

San Francisco, Mar. 18.—V. F. Groves, radio engineer of the Department of Commerce at Washington, is due here Monday to preside over a conference of radio and naval experts, at which an effort will be made to devise a wave length schedule for the Pacific Coast. Retiring Radio Inspector R. B. Woolverton says that on account of the powerful electric waves produced by the instruments, service is being interfered with slightly.

Cut This Out— It Is Worth Money

Cut out this advertisement, enclose 5 cents to Foley & Co., 2335 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing:

(1) Foley's Honey and Tar Compound, the standard family remedy for coughs, colds, croup, whooping cough, tightness and soreness in chest, grippe and bronchial coughs.
(2) Foley Kidney Pills, for overworked and disordered kidneys and bladder ailments, pain in sides and back due to Kidney Trouble, sore muscles, stiff joints, backache and rheumatism.
(3) Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic. Especially comforting to stout persons, and a purgative needed by everybody with sluggish bowels and torpid liver. You can try these three family remedies for only 5c.

DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH

Look at Tongue! If Coated, Clean
Little Stomach, Liver,
Bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs." and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask our druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Adv.

NO INDIGESTION, GAS OR STOMACH MISERY IN FIVE MINUTES

"Pape's Diapiesin" for Sour, Acid
Stomach, Heartburn,
Dyspepsia.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapiesin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.—Adv.

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair root's shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.—Adv.

WEAK FROM GRIPPE.

Home Missionary Tells How She Restored Her Strength.

"I am a Home Missionary, was weak and run-down after a hard spell of LaGrippe. I had headaches, indigestion and pains in my chest, and was tired all the time. A friend asked me to try Vinol and the result is I am free from those troubles and I feel well and strong and able to go to work again." Mrs. Hattie Johnson, Towanda, Pa.

The reason Vinol was so successful in building up Mrs. Johnson's health is because it is a constitutional remedy which contains peptonate of iron to enrich and revitalize the blood, the nourishing properties of beef peptone and the healing medicinal extracts of fresh, healthy cod's livers, all combined in a delicious tonic wine, without oil.

We wish every person in Jacksonville who is suffering from a weakened, run-down, debilitated condition, would try our Vinol on our guarantee to return their money if it fails to benefit them. Lee P. Aldcott, Druggist, Jacksonville, Ill.—Adv.

Bids Are Asked For.
Sealed bids will be received by the undersigned for furnishing the city of Jacksonville two combination motor trucks. Specifications are on file in the office of Commissioner J. E. Martin. Bids will be received until 10 a. m. Monday, March 20. Each bid must be accompanied by a certified check for one-tenth of the amount of the bid. The right is reserved to reject any and all bids.
R. L. Pyatt, City Clerk.

FERTILIZERS ABOUND IN GARBAGE FROM CITIES

Government Document Calls Attention to Valuable Soil Materials Which Can Be Obtained From This Source.

In view of the fact that an appropriation has been made by the city council for the building of reduction plant here the following article issued by the government about the value of fertilizers secured from municipal wastes is of special interest.

"A survey of the nation's resources in fertilizer materials has drawn attention to the large supply of these to be found in the accumulation of garbage in cities. This waste material contains nitrogen, phosphoric acid and potash, which are recognized as essential to the production of large crops. Valuable as these elements are to the farms of the country, the garbage in which they are found is a source of trouble and expense to the cities. It seems therefore, that this garbage can be disposed of most advantageously by returning it to the soil in the form of fertilizer.

In cities of 100,000 people or more the reduction of garbage by methods which furnish a residue fit for fertilizer use has proved to be a profitable municipal enterprise, and in smaller communities it might well be self-sustaining. Numerous analyses of raw garbage show that, on the average, grease constitutes 3.5 per cent; and of the fertilizer ingredients potash, 0.3 per cent; bone phosphate, 1 per cent; and nitrogen in the form of ammonia, 1 per cent. On this basis the value of a ton of raw garbage is about \$5, the grease being worth \$3 and the fertilizer ingredients about \$2.

"Since the grease is of more value than the fertilizer, the reduction process is primarily designed to recover the grease. There are three principal methods of doing this. The garbage is cooked and steamed and then pressed dry and degreased in gasoline. Or, the garbage is dried directly in rotary hot air kilns and then degreased in gasoline; or it is dried and degreased in one operation.

"As raw garbage contains 70 per cent water and 3.5 per cent grease, the yield of the tankage residue or fertilizer should be about 25 per cent. Thus, 4 tons of raw garbage should be made to yield one ton of dried tankage and \$12 worth of grease. In the retail market the dried tankage sells for about \$10 a ton and at wholesale for \$7.50. There has been no great fluctuation in these prices for some time. In actual practice, however, the percentage of tankage obtained is not usually 25 per cent.

"At present, however, only six cities in the United States operate their own reduction plants, and about 20 send their garbage to privately owned plants. These produce in the course of a year 160,000 tons of tankage, or fertilizer, made from 1,045,000 tons of raw garbage. If all of the 199 cities in the United States which have a population of 30,000 or over should adopt this method of garbage disposal, the total yield should be from 637,500 tons to 937,500 tons of fertilizer per year. This would be worth from \$4,780,000 to \$7,000,000. Additional fertilizer material could also be obtained in the cities from dead animals, street sweepings, and stable manure.

"This subject, specialists in the U. S. department of agriculture believe, merits careful consideration, because it will be of advantage both to the American farmer and to the cities from which he obtains his fertilizer.

MARCH OF COLUMBIA'S LEGIONS

Forward into Mexico
With their light equipment go,
Soldiers many hundred.

Swearing not to left or right,
Entering that land of blight,
All their ties are sundered.

Legions many without loss,
God deserted desert cross,
Legions many hundred.

Heeding not the "race horse" tale,
Following up the "smugglers' trail,"
Where Villistas thundered.

Nature barren giants piled
In the mountain fastness wild,
Till the gods have wondered,
Upward there vast bolts are hurled,
Deepest, densest, desolate world,
Their's the right to dare and do,

Into wilds of Mexico,
There Columbias soldiers go,
Where the bandits plundered,
Fearing not the traitors knives,
Righteous cause to give their lives,
Fearless many hundred.

Who will be the first to fall,
Matters not to them at all,
Not a man has wondered,
Nor if they return again,
To the land of freest men,
Columbia's many hundred.

Their's to quell the thoughts that
Hold their duty, nobly, true,
Soldiers many hundred,
Theirs to never backward turn,
Theirs to quell the thoughts that
yeam
For the ties they've sundered.

Theirs to be the first to trace
Traitors to their hiding place,
Bandits who have plundered,
Theirs to be the blood which thrills,
As they search amidst the hills,
Bandits many hundred.

For Humanity's higher laws,
Facing the black demon's jaws
Say not they have blundered
Theirs to stand for justice agh,
Theirs to win or nobly die,
Columbia's many hundred.

S. Adrain Hughes.

FOODS

THEY BUILD OR DESTROY

Amazing but Rarely Suspected Truths About the
Things You Eat.

(Copyright, 1916, by Alfred W. McCann.)

CHAPTER 33.

The relationship between the known causes of constipation and the suspected causes of cancer is based upon the unnatural loss of cellulose, mineral salts, colloids, and vitamins to which the nation's breakfast foods and breadstuffs are subjected before they are put on sale.

Because it is true that constipation in the United States causes more human misery than drunkenness we shall not dismiss the subject until it is considered in connection with the prevalence of acidosis and cancer now on the rapid increase from coast to coast.

The demand for laxative pills, cathartics and heart depressors for the relief of constipation and the headaches due to the absorption of retained toxins from congested intestines overloaded with decay, is greater than the demand of the "morning after" for braces.

It is needless to reassert this truth, for all of us know that if we ask any druggist what one so-called remedy is most coveted by the human race we shall be told that "constipation pills" sit on the mountain top of popular clamor for relief from distress.

The average creature, who lives largely on food deficient in cellulose, fibre, and mineral salts, needs no description of the misery which constipation begets, but there is another warning for such creatures which should not be ignored.

Diagnosticians are agreed that many of the ills which plague human nature are preceded by a history of constipation. They also agree on the proposition that freedom from constipation averts many ills.

They are not agreed upon the cause of cancer. Some of them believe that cancer is a premature aging and breaking down of the cells. They hold to the theory that certain cells become aged while the tissues around them are still in a state of comparative youth. The aging cells they say express their senility by returning to a more embryonic form and as they do so increase in number, thus resulting in the morbid growth which is called cancer.

In the opinion of many cancer specialists this faculty of multiplication is one of the manifestations of degenerating cells.

Other cancer specialists hold to the proposition that cancer is the direct result of irritation, either mechanical or chemical, and that it may be produced by the absorption of an unidentified poison.

Still others believe that it is pro-

duced by the invasion of a parasite yet unrecognized and too small to be discovered by the most powerful microscope. Yet, while they are all in doubt about the origin of cancer, they all know that it is increasing at the rate of 2.4 per cent a year in the United States.

Dr. Horace Packard of Boston University discussing the cancer question before the Surgical and Gynecological Society of the American Institute of Homoeopathy at Chicago, June 28, 1915, declared that demineralized foods form a factor in the development of cancer.

"The human family is underfed in mineral food salts," he said, "A momentous fact is that the flour mills of the civilized world are busy eliminating every particle of iron, phosphorus, sodium, potassium, silicon, calcium, chlorine, magnesium and sulphur (mineral salts) from our staple food supply and sending out food material rich in heat units but pitifully meagre in energizing and immunizing material.

"Since a critical examination of the habits of life in civilized cancer-plagued people in comparison with the habits of primitive cancer-free people shows that the main difference between them is in a dietary poor in mineral salts and a dietary rich in mineral salts among the cancer-free people, the most logical and rational course is to adopt this as a keynote to cancer treatment.

"All forms of malignant disease are possible only because of absence of or loss of immunity. All animal life in normal state of environment and supplied with nutriment bearing all the organic ingredients necessary for the maintenance of disease-resisting vitality possesses in itself a protective immunity to cancer.

"In view of the well established fact that in the vegetable world an adequate supply of the earth's salts, phosphorus, potassium, iron, magnesium, silicon, calcium, etc., acts as a distinctive deterrent of parasitic life and makes for vigorous disease-resisting life, may we not assume as a fact for the animal world?

There is indeed a direct relationship between the known causes of constipation and the suggested causes of cancer. This relationship is based upon the loss of cellulose,

mineral salts, colloids, and vitamins in our breakfast foods and breadstuffs.

Take, for instance, the bran of wheat, which is one of the food elements lost to modern cancer plagued civilization. Wheat bran consists of three layers, all of which contain larger proportions of cellulose or fibre than the interior of the grain.

The two outer layers contain more of the phosphorus, calcium, and iron compounds than the other parts of the grain; while the innermost layer contains a special kind of protein, which, there is reason to believe, is the seat of the indispensable vitamins lost in the milling of wheat.

As we have seen, bran is not so "digestible" as first-patent flour for the reason that all of first-patent flour is absorbed whereas all of the bran is not absorbed. The mistake of estimating the food value of any food by its ability to undergo complete absorption has already been recognized by many authorities and it is now certain that the medical profession will soon give to the non-absorbable food elements the importance which belongs to them.

WILSON FUNERAL NOTICE.
The funeral of John Wilson will be conducted today at 2:30 p. m., at the Methodist Episcopal church at Lynville.

LOTS FOR SALE

Three good lots one block of car line on paved street, cheap; easy terms. One good lot one block of car line, paved on side, cheap; easy terms. These are better than sale lots, because we will make splendid terms on them.

Some Topics of the Farm

THE FULLER SALE.

The public sale of horses and mules held by W. H. Fuller at the Packard barn Saturday drew a big crowd of buyers and prices were uniformly good. Mr. Fuller had gathered together a large bunch of all purpose farm animals and he found that the demand fully justified the preparation that he had made. The auctioneers were J. Cox, Merle Beddinhoff and Len Goacher and R. Stevenson was the clerk. Among the sales made were the following:

Horses and Mares.
Carl Martin, \$185; Charles Pate, \$130; F. E. Drury, \$150; Carl Martin, \$167.50; William Young, \$135; James Martin, \$175; J. R. Mitten, \$202.50; Jacob Hoover, \$97.50; J. Boatman, \$125; Charles Taylor, \$195; Edward Allen, \$155; H. Plunkett, \$87.50; J. Butler, \$140; James Mack, \$120; C. Cooper, \$132.50; J. Logue, \$142.50; F. J. Blackburn, \$117.50; Arch. John, \$100; C. Horner, \$147.50; Edward Landreth, \$142; Jacob Hoover, \$100; H. Strawn, \$120; Jacob Hoover, \$102; Arch. Cohn, \$79; P. Spencer, \$80; N. Arnold, \$55; Samuel Ruble, \$47.50; Alva Rexroat, \$62.50; Fred Ruble, \$140.

Three Shetland ponies were sold, one to J. Berger at \$42.50, one to Jacob Strawn at \$45 and another to S. B. Kumble for \$42.50.

Mules.

The mules unless otherwise indicated were sold in pairs at the following prices: Arthur Cram, \$462.50; George Caldwell, \$382.50; Clifton Strawn, \$322.50; H. E. Whiner, \$330; Louis Rexroat, \$222; J. Strawn, \$317.50; John Rexroat, \$280; Elmer Henderson, \$230; H. Plunkett, \$270; O. Horton, \$225; Louis Rexroat, \$425; William Arnold, \$242.50; W. Jones, \$292.50; William Young purchased a single mule at \$102.50 and Newton Flynn one at \$70.

Livestock Prospects.
With steers and hogs flirting

around the ten-dollar mark, and lambs considerably higher, livestock producers are generally in a happy frame of mind, especially those who have something to sell. Sales of pure-bred stock have been generally highly satisfactory, with new records in some herds. Various unfavorable conditions in different parts of the country in the last few years have decimated flocks and herds decidedly, but the man who has stayed steadily and conservatively in the game is now reaping his reward. That has been the experience of livestock producers before and always will be so far as we can see now. Practically all people still eat meat and population is continually increasing. It is entirely possible to maintain soil fertility without livestock, but it is not probable. Communities where much livestock is continuously kept are notably rich. That evidence spoils a mass of fine theory. Some farmers have clamored for assurance of such prices for livestock as will warrant a reasonable profit on every crop fed. That would be very nice but unquestionably impracticable. Livestock farming will continue to be profitable farming where properly conducted.—The Farmers' Review, Chicago.

Wheat Crop in Bad Condition Correspondents Report.

Springfield, Ill., March 18.—The condition of the wheat crop in Illinois is serious, according to B. M. Davison, secretary of the state board of agriculture. "We won't have more than a 50 percent crop in Illinois," said Mr. Davison today. "The open winter is responsible. Conditions in Illinois were representative, in my opinion, of those in Missouri, Indiana and Iowa."

Secretary Davison's figures and estimates were based on the reports of 350 correspondents of the board stationed in all parts of the state, received here March 15 and compiled today.

Thirty-one percent of the wheat sown has been killed, according to the board's estimates and the living wheat is only 66 percent of normal.

LAND O'NOD STORIES

THE ANTS' PARASOLS

"The branches of this tree must be loaded down with ants by this time," said Billy by Do Bum after he had watched the procession of foragers climbing the trunk of the big oak for several minutes. "All the ants in Texas must be holding a reunion in this tree tonight."

"And yet this vast army of foragers is only part of the population of one city," replied Tinker Teddie Tee. "I would be afraid to tell you how many thousands of ants live in this nest, for you would not believe me. But look Billy Boy look, see what is coming down the trunk."

Billy looked up and he was so astonished by what he saw that his eyes nearly popped out of his head. And he had good reason to be surprised, for at the side of the column of ants climbing the tree was another column descending, and would you believe it, each of these ants carried a parasol above its head, just like a young lady out for a walk. Now of course they were not the kind of parasol you buy in a store, but each ant carried a piece of leaf clutched in its jaws, and these leaves made as fine sun shades as you could wish to see.

"Do you wonder people call them Parasol Ants?" asked Tinker when Billy had somewhat recovered from his surprise.

"You couldn't very well call them anything else," replied Billy. "Oh yes you could. Their right name is Cutting Ants, and if you look at the branches of this oak you will see that this name fits them as well as the other."

Billy looked up and for the first time saw that one side of the tree was almost completely stripped of leaves. The branches were as bare as though it was the middle of the winter, which is not very strange when you stop to consider how many thousands of ants had cut parasols from the leaves.

"The laws of these Cutting Ants are especially adapted to this kind of work," explained Tinker Teddie Tee. "They are almost as good as a pair of scissors and their sharp teeth snip thru the leaves like a hot poker thru butter. In the course of a year one colony of these ants does a great amount of damage to crops and foliage, and the farmers are right in regarding them as real pests."

As soon as the foragers reached the foot of the tree they dumped their parasols on the ground and joined the column constantly ascending the tree trunk, going back for another load. But the parasols were not permitted to lie on the ground, for another army of workers seized the leaf cuttings in their jaws and carried them off to the gate of

the city.

"What do they do with all these leaves?" asked Billy.

"Suppose we follow and find out," suggested Tinker.

So they retraced their steps to the city gate and entered the nest. Billy kept a tight hold of Tinker's hand as they started down the tunnel, for it now was so dark that he could not see a thing, and he did not know what new adventure he might encounter. Before they had gone very far Billy's eyes became accustomed to the dusk and he was able to see without much trouble. He found this city was much like the one he had left a short time before, except that the rooms and galleries were much larger.

Down and down and down led the passage until at last they reached a great central cave several hundred feet long and about as broad, at least it was that large when you compare the size of an ant to the size of a man. There was not a sign of the parasols the ants had cut from the leaves of the big oak, but at the center of the vault was a great dome that looked as though it was made of gray paper. Around the sides were several tall pillars of the same material, and when he looked up, Billy saw that smaller ones hung from the ceiling in clusters. There was a hole near the bottom of each pillar and a small door at the base of the central dome, thru which ants were constantly coming and going.

"What are these strange looking houses?" asked Billy.

"They are the nurseries," replied Tinker Teddie Tee, "where the Queen lays her eggs and where the baby ants live until they are strong enough to shift for themselves. Would you like to have a peep inside?"

"I most certainly would," replied Billy, so he and Tinker entered the door of the big gray dome.

"Well of all things," gasped Billy when he had taken one look around, but he was so surprised by the sight that met his eyes that he was unable to say anything more. And he had good reason to be astonished, for the interior of the dome looked for all the world like a honey comb, being composed of row after row of six-sided rooms arranged one above the other, a narrow passage connecting each chamber. Every cell was crowded with either eggs or baby ants, while dozens of nursemaids ran hither and thither caring for their tiny charges.

"This looks more like the inside of a large bee hive than an ant nest," said Billy when he had peeped into all the rooms.

"Yes it does," agreed Tinker, "and these ants have stolen one of the bees' most treasured secrets."

And next I will tell you how the ants make paper.

SOME NOTABLE BIRTHDAYS TODAY, MARCH 19.

William J. Bryan, 56 years old today.

Admiral von Tirpitz, developer of German submarine warfare, and reputed until his recent resignation to be one of the terrorist leaders of Germany, 67 years old today.

Dr. Frank W. Clarke, noted chemist of the U. S. Geological Survey, 69 today.

Sir Lomer Gouin, Prime Minister of Quebec, 55 years old today.

Hon. Frederick W. Rowe, new

Congressman from Brooklyn, N. Y., 53 years old today.

Dr. David Todd, famous astronomer of Amherst College, 61 years old today.

Louis Tracy, famous English novelist, 53 years old today.

Judge Peter J. Hamilton, of the U. S. District Court of Porto Rico, 57 today.

Hon. Thomas J. Steele, new Congressman from Iowa, 63 years old today.

Duke of Westminster, famous British sportsman, 37 years old today.

MEMBERS OF INDIANAPOLIS TEAM TO REPORT AT LOUISVILLE MONDAY

INDIANAPOLIS, March 18.—Members of the Indianapolis team are to report in Louisville next Monday preparatory to their trip south for the early spring training. The players will depart from Louisville early the next morning and will arrive in Albany, Ga., which has been selected as the training camp, on March 22. The club will remain in Albany until April 3, when it will break camp and gradually work north.

April 5 and 6 will be spent in Nashville where the Indians will play two games with the Volunteers. Two practice games with the Pittsburgh Nationals are scheduled to be played here on April 8 and 9 and then the team will go to Bloomington to practice with the baseball squad of Indiana University for four days. The last of the practice season will be spent in Terre Haute in a two-game series with the Central League club of that city on April 15 and 16.

Manager Jack Hendricks will take the following men with him to Albany:

Pitchers—Willis, Schardt, Aldridge, Rogge, Conzelman, Kaeserling, Dawson, Riley.

Catchers—Gossett, Stevens, Infelders—Leary, Metz, Moore, Crandall, McMillan, Mitchell, Derick, Bronkie.

Outfielders—Butcher, Joseph Kelley, James Kelley, Cole, Wickland, Riley.

MAN THE THEME HUMOROUS TOAST BY MRS. CARLSON

A Lot of True Philosophy of Life Underneath the Springtime Words—Read at Murrayville Dinner.

At the twentieth anniversary of the adl society of the Murrayville church Friday night Mrs. Norman Carlson, who is the president of the society responded to the toast "Man" and presented the following cleverly written lines:

Did it ever occur to you that a man's life is full of crosses and temptations?

He comes into the world without his consent, and goes out against his will, and the trip between the two is exceedingly rocky. The rule of contraries is one of the features of the trip.

When he is little the big girls kiss him, and when he is grown the little girls kiss him.

If he is poor, he is a bad manager, if he is rich he is dishonest.

If he needs credit he can't get it, if he is prosperous everyone wants to do him a favor. If he is in politics it's for the pie, if he is out of politics, you can't find a place for him, and he is no good to his country. If he doesn't give to charity he is a stingy cuss; if he does it for show.

If he is actively religious he is a hypocrite, if he takes no interest in religion he is a hardened sinner.

If he gives affection he is a soft specimen, if he cares for no one he is cold blooded.

If he dies young there was a great future before him, if he lives to an old age he has missed his calling.

The road is rocky, but man loves to travel it, and after all there is a good deal of satisfaction, especially if he is well served.

Bark said, "Man is an animal that cooks his vittuals"—but he is mistaken. Man's animal that wants a woman to do the cooking.

In fact any kind of work was done by women, until somebody invented machinery to do the work, and now men knit and weave, and spin and wash and till the soil. Now, a man plants his corn with a spring seated, canopy topped planter, when fifty years ago the woman dropped the corn and covered it with a hoe.

Man has even turned into a fashionable dressmaker—and that is why material—for man has always been the skirts are so short and the waists so low,—it saves work and of an economical nature, if his wife asks him for a quarter he immediately demands to know "What did you do with that quarter I gave you two months ago—you must think I'm made of money."

Man goes to see a girl every night in the week before he marries, but suddenly takes a liking for men after he marries, and thinks it is a cross if he has to stay at home one or two nights a year. So here's to man. He is like a kerosene lamp—no overbright often turned down, generally smokes and often goes out at night.

DULUTH BANKER WEBS

Chicago, Mar. 18.—Miss Ruby Wimmer will be married today to Maurice H. Braden, a Duluth banker, at the home of her uncle, William J. Sutherland. The bride is the daughter of Mr. and Mrs. J. R. Wimmer of Wabash, Ind., and for some time has made her home here. She has taken an active part in social life, and is devoted to outdoor sports.

SENIOR TRACK STARS AT NEW YORK.

New York, Mar. 18.—A representative entry with talent from all sections of the country, features the national senior indoor championships of the A. A. U., which are being run off today. In all of the events the cream of the athletes is entered, and it is hard to pick favorites in many of the contests.

PHILLIES DEFEAT CUBS.

St. Petersburg, Fla., Mar. 18.—Chicago Nationals, 2-6-3; Philadelphia Nationals, 7-7-3.

McConnell, Lavender, Prendergast and Fisher; Tineup, Baumgartner, Kark, Adams and Adams.

Scott Green of the vicinity of Antioch was a city caller yesterday.

COLLEGE OF MUSIC.

The first annual concert by the College orchestra took place on the evening of March 16th, before a large and enthusiastic audience. The orchestra numbers twenty-four pieces and has been working to good purposes under the baton of Mr. Stearns for more than a year. They were assisted by Miss Lazelle and Mrs. Hartmann who won instant favor with the audience. The following was the program presented: Menuets from the Symphony in E flat Mozart Spanish Dance Moszkowski Duet—Barcarolle from the Tales of Hoffman.

Miss Lazelle, Mrs. Hartmann Symphony in D major Haydn Adagio—Allegro Minuet

Suite "Day in Venice" Nevin Dawn

Gondollera Venetian Love Song Good Night

Waltz Song from Remeo and Juliet Gounod

Grand March from Aida Verdi

The orchestra should come to be more of an all college organization. We should find in our midst girls to play all of the instruments to have the benefit of this training and to lead in the college celebration. The program closed with the spirited singing of the college hymn led by the orchestra organ, Miss Lazelle and Mrs. Hartmann.

The date for the second violin and piano sonata recital by Mrs. Day and Mr. Stearns, has been changed from Thursday, March 23d to Friday, March 24th, at 8:15. The program will consist of sonatas from Haydn, Handel and Mozart and vocal numbers by Mrs. Hartmann and Miss Lazelle drawn from works of the same three composers. The recital is open to the public without charge, and all are cordially invited to attend.

Thursday afternoon, March 23d, at 4:20 o'clock will occur the next of a series of biweekly students recitals at the college of music.

Miss Gweneth Chenoweth from Mercedosa and Miss Daisy Collins from Springfield, have registered for piano with Mrs. Kolp at I. W. C.

JUNIOR BASKETBALL TOURNAMENT DEVELOPS EXCITING CONTESTS

The games in the Junior Basketball tournament in progress at the Y. M. C. A. developed some exciting contests in the series played Saturday morning. The games are growing in interest and some excellent playing is being done by the various teams.

Saturday morning the best game was that between the Buicks and the Fords, the Buicks winning in the final twenty seconds of play by a score of 9 to 8. The score at the end of the first half was 5 to 3 in favor of the Buicks. In the last half the Fords outplayed the Buicks and went into the lead by a score of 8 to 5. The Buicks tied the score and finally won out.

The Hudson beat the Dodges by a score of 5 to 3. The Hudsons displayed good team work and Rife was the bright particular star.

The Overland team played rings around the Stutz team and won by a score of 12 to 0. The Stutz team showed improved form in the last half but their basket shooting was faulty and they failed to score.

SATURDAY IN CONGRESS.

Senate.

Met at noon. Report on Chamberlain army reorganization bill was submitted. Senator Hardwick spoke on National Defense.

Adjourned at 4:52 p. m., to noon.

House.

Met at 11 o'clock.

Tender Teeth—the first sign of Pyorrhea

When you brush your teeth, does it feel as though you were brushing against the quick? Do the gums sometimes bleed? This is because pyorrhea has caused the gums to pull away from your teeth, leaving the unenamelled surfaces unprotected.

Your dentist will tell you, if you ask him, that you have gum recession; and that gum recession is caused by pyorrhea.

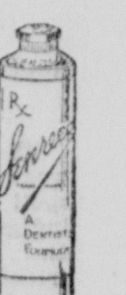

Unchecked, pyorrhea will warp and shrink and deform the gums. It will break down the bony structure into which the teeth are set—and you will eventually lose them. To save your teeth you will have to begin to fight this dread disease at once.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your

teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address: The Santanel Remedies Company 503 Union Central Building, Cincinnati, Ohio.

SALKO
SAFETY FIRST

Have You Any of these Symptoms?
Backache?
Swollen Ankles or Feet?
Puffy Eyelids?
Watch Your Kidneys!

Don't Let Your Kidney Trouble Become a Kidney Disease

The slight kidney trouble of today may become a chronic or fatal kidney disease tomorrow. It takes only a little neglect of the little trouble to develop into Diabetes or Bright's disease—which nothing on earth can cure.

SALKO
Kidney and Backache Pills

were made for you. They prevent fatal kidney disease by correcting kidney troubles and keeping the kidneys clean and healthy.

Take these pills at the first sign of irregular kidney action and keep well—that's the whole theory and practice of Salko Safety First Remedies.

We have a book on Health-Safety-First for you, FREE
It is called "The Salko Safety First Manual of Health and Diet" and it tells you how to keep well.

All seats free and a hearty welcome to the unchurched. Mothers may leave their babies in the nursery.

DR. AND MRS. MOREY MARRIED FIFTY-FIVE YEARS AGO TODAY.

March 19, 1861, in Schenectady, New York, Dr. Edward Feeley of the Dutch Reformed church said the words that united in marriage a young Presbyterian minister, Rev. Alexander B. Morey, serving a church at Franklin, Indiana, and Miss Josephine Harlan of Schenectady. The young people went at once to their home in Franklin in the Hoosier state and began the journey of life together and today the worthy gentleman remarks with no small degree of satisfaction that during the fifty-five years of married life no unkind or unpleasant words have passed between them. Two sons and a daughter came to gladden their home but the sons passed away in infancy. The daughter is yet with them useful in Sunday school, church and elsewhere, and a comfort indeed in the declining years of her parents.

Dr. Morey has had but three charges, Franklin, Cincinnati and Jacksonville and today he is to preach in State street church and it is not known that there will be any special celebration of the happy anniversary.

HUMANE SOCIETY IS NEEDED.

While Jacksonville is discussing the use and desirability of various organizations it would be well to take into account the establishing of a humane society with police powers conferred on its officials. Almost daily there are accounts of brutality on the part of teamsters who most certainly deserve a calling down if not punishment. Coal is loaded on soft ground and a weight suitable for pavements is placed on the wagons and then the poor animals hitched to the load are cruelly beaten and abused.

In some places humane societies are organized and prudent persons are invested with police powers and a few salutary punishments act as a wonderful deterrent. A resident of New York said that during the life of Henry Bergh, the great humane society leader, so well were the animals of the great city protected that a teamster didn't dare abuse his dumb beasts and he said he had seen a man angry at his horses look carefully in every direction before daring to beat them. Surely consistent christianity means mercy to dumb animals along with other good things and the complaints mentioned are so frequent they should have attention.

JUNIOR MAYFLOWER CLUB.

The Junior Mayflower club of the McCabe M. E. church were royally entertained by their captain, Rev. T. A. Herman at his residence, 815 Myrtle street, Saturday afternoon. About twenty young people were present and spent a most enjoyable time in all kinds of games. A special feature of the afternoon was the "Donkey Game." Delicious refreshments were served. Those present were Carrie Lee Brinkman, Imogene and Charlyne Mackey, Marnice and Lucile Cowens, Louise Bell, Flossie Mayors, Dora Harris, Margaret Wright, Cornelia Wright, Opal Cooper, Martha Clark, Leslie and Ralph Brinkman, Edward Mallory, Roy Isaac, Samuel and Edward Wright, Martin Luther Mackey, Walter and Eugene Gray, Clifford Wright, Mrs. Ada Lee Herman and Miss Serena Herman.

Electricity Will Make Your Home So Cheerful

Not only will the bright glow of Electric Lights—on or off at the twitch of a switch—add so much to the cheer of your home, but the many other conveniences electric service brings will make the whole family happy.

Every Household Task May Be Performed Better Electrically

By removing all drudgery, unpleasant tasks and disagreeable work electric service brings perpetual sunshine into the home.

E-L-E-C-T-R-I-C-I-T-Y

Spelled Out (Put in Your Home) Means for You

Comfort—Convenience—Economy

If you are one of those persons who never has given the matter of electric service much consideration, do so now. You will be astonished at its economical features, and will wonder why it had escaped you so long. The "Wire Your Home" campaign no going on, gives you an opportunity seldom met.

Here Are Our Plans

Study Them Over Thoughtfully

PLAN A—Five rooms wired complete, with drop cords \$22.50

PLAN B—Five rooms wired complete, with drop cords, porch light and flush switch \$29.75

PLAN C—Five rooms wired complete, with three drop cords, 2 two-light fixtures and porch light and flush switch \$37.75

PLAN D—Six rooms wired complete, with drop cords \$25.00

PLAN E—Six rooms wired complete, with drop cords, porch light and switch \$30.50

PLAN F—Six rooms wired complete, with four drop cords and two two-light fixtures \$34.50

PLAN G—Six rooms wired complete, same as proposition "E," with porch light and flush switch \$40.50

PLAN H—Eight rooms wired complete, with drop cords \$31.50

Then Consider These Gains

Convenience

Electric Service means no matches no dirt. It is always available for flat iron, toaster, percolator, washing machine or vacuum cleaner.

Comfort

The soft glow of Electric Light adds so much to the comfort of any home.

Service

You may have Electric Service installed in your home without muss, fuss or damage of any kind to walls or floors.

Economy

The cost of Electric Service has always gone lower as other living expenses have risen. Electricity is inexpensive to install and use.

SPECIAL MUSIC AT GRACE CHURCH.

The choir of Grace church will give a Lenten concert this evening at 7:30 o'clock. The cantata to be rendered is "The Gallia," by Gounod. It is a setting of the lamentation of the prophet Jeremiah over the fall of the city of Jerusalem, beginning with the words "Desolate lies the city," and closing with the prayer, "Jeremiah, O turn me to thy God." Gounod wrote this cantata after the fall of Paris in the Franco-Prussian war and for years it has been regarded as the musical composition with which to begin the Lenten meditations of penitence preparatory to the Easter festival. Appropriate scripture selections and hymns will add to the devotional atmosphere of the service. The pastor cordially invites the members and friends of Grace church to join in the worship of this Lenten concert.

REV. PRESTON WOOD DIED SATURDAY NIGHT

DEATH CAME TO WELL KNOWN MINISTER IN A SPRINGFIELD HOSPITAL.

Springfield, Ill., Mar. 18.—Rev. Preston Wood, district superintendent of the Springfield district of the Methodist church, died at 11:15 o'clock here tonight at St. John's Hospital. He was one of the best known Methodists, ministers in Illinois. He died as the result of an operation for relief from appendicitis. His father, the Rev. Preston Wood, held the same position in this city many years ago, and was one of the veteran Methodists of the state at his death.

Rev. Mr. Wood was at one time resident in Jacksonville, holding the Brooklyn charge for three years and going later to a pastorate in Delevan. From Delevan he went to Taylorville and thence to Danville.

Rev. Mr. Wood was married to Miss Lida Bronson, daughter of Mr. and Mrs. T. J. Bronson, fourteen years ago and to this union a daughter was born, who preceded the father in death some six years. Mrs. Jane K. Wood, mother of the deceased, resides at 6 Duncan place, this city, as does a sister, Miss S. Catherine Wood. Mrs. W. S. Phillips of Cerro Gordo, is a sister of Rev. Mr. Wood. The two brothers surviving are William Wood of Washington, D. C., and the Rev. Bert Wood of Kansas.

Rev. Mr. Wood was known as a man of high ideals. Of strong character he was at the same time blessed with such gentleness and breadth of human sympathy that in each pastorate he won the hearts of all. His going will be the signal of many a profound regret and many sorrowing hearts will extend sympathy to those near and dear to him.

Funeral arrangements have not been made.

MRS. DOROTHEA BATZ DIES AT EARLY HOUR

PASSES AWAY AFTER LINGERING ILLNESS OF SEVEN WEEKS

Had Been in Good Health Until the Time of Last Illness—Was Born in Germany and Came to America in 1851.

Mrs. Dorothea Batz passed away at an early hour this morning at the home of her son, Fred L. Batz, 444 South Main street. Death came after a severe illness of more than seven weeks duration but for several days past her condition had been so grave that death was hourly expected. She bore her suffering at all times with fortitude and the vitality she displayed was the more remarkable when the hopelessness of the fight for life was taken into consideration. Before her illness Mrs. Batz had always been in the best of health.

Miss Dorothea Wiegand was born Feb. 2, 1829 at Werringshausen, Germany and was thus 87 years old when death came. She was united in marriage to Christian Batz July 13, 1851, while yet a resident of Germany and she and her husband

Mrs. Dorothea Batz.

came to America on their honeymoon trip, making the journey in a sailing vessel. The voyage took over seven weeks and on landing they went to Wisconsin and purchased a farm close to Sheboygan, where they lived for a few years.

Mr. and Mrs. Batz came to Jacksonville May 25, 1865 and she has made her home here ever since that time. Mr. Batz preceded her in death eighteen years ago. The deceased is survived by two children, William Batz and Mrs. Mina Toennemann and two grandchildren, all living in this city. Two sisters also survive, one living in Sheboygan, and one at Nelsville, Wis. "Mother Batz" as she was always affectionately called by her relatives and the friends who knew her well was a true Christian woman. She was devout and faithful member of the Lutheran church with which she became affiliated when quite young and her interest and steadfastness continued all thru the years. Mrs. Batz was also a charter member of the Ladies Aid Society and many a kindly and charitable act is credited to her memory. In all things the deceased was a woman of admirable character and the world and the community is better because she lived.

SOCIAL EVENTS

James Baker Is Surprised on Birthday

A very pleasant surprise was given James Baker at his home in the Salem neighborhood, east of the city, Saturday evening by his daughters, Mrs. Elean Davis, Mrs. Sarah Cook and Misses Alice and Nettie Baker, the occasion being his birthday. A number of friends and neighbors were invited in to celebrate the evening and to show the high esteem in which Mr. Baker is held in the community, he was presented with a beautiful rocking chair by the guests. The evening was pleasantly spent in social conversation and a luncheon was served. Among those present were: Elean Davis and family, Daniel Cook and family, Mr. and Mrs. E. Phillips, Mr. and Mrs. Thompson and family, Mr. and Mrs. Frank Green and family, Mr. and Mrs. Daniel Moy and daughter, Mr. and Mrs. Thomas Boyd, Mr. and Mrs. Edward Armstrong, Mr. and Mrs. Milton Davies and family, Mr. and Mrs. William Davies and family, Mr. and Mrs. Charles Dadds, Mr. and Mrs. Harvey Davies and family, Mr. and Mrs. Samuel Cromwell and family, Edward Green, Doc Johnson and Reuben and Charles Cook.

Surprise Party for Mrs. F. L. Gibson.

A very pleasant surprise party was given Friday evening for Mrs. F. L. Gibson in honor of her birthday by her daughter, Miss Ora. The evening was happily spent in playing games. Refreshments were served. Among those present were: Mr. and Mrs. Seymour, Mr. and Mrs. Hiram Huff, Mr. and Mrs. Coffman, Mr. and Mrs. Lupien, Mr. and Mrs. Jacoby, Mr. and Mrs. Zimmer, Milton Stout, Mrs. Ernest Tilton, Mrs. Mather, Mrs. Cramwell, Mrs. George, Mrs. Molohon, Miss Hildur Johnson, Miss Ruth Robb, Miss Clara Zimmer, Miss Mary Wagoner, Miss Addie Bliss, Fred Scheneman, Wilbur Farris, Alfred Anderson, Lloyd Zimmer, John Manley, Master Roy Stout, Miss Laura Washburn of Tallula, Mrs. William White of Toulon, Miss Ruby Molohon, Miss Irene Zimmer and Miss Ora Gibson.

St. Patrick's Day Party.

Miss Estella Bourn entertained a number of friends at a "pig party" Thursday evening. Pigs were the dominant feature of the evening's amusement for instance the "Irish Stew." Each guest was given a potato and was told to cut from it a pig. A prize was rewarded for the best one. The evening was spent with similar games and music. The "Pig" feature was also carried out in the refreshments.

Mrs. Thies Hostess To Woodson Club.

The Woodson Household Science club met Wednesday afternoon at the home of Mrs. George Thies. The roll call was answered by sayings characteristic of the Irish. This was followed by a solo by Mrs. Harriett Smith accompanied by Mrs. J. T. Self. A general discussion then followed on fish and the ways of preparing it. The meeting then closed with a business session.

Pleasant Hour Club Entertained.

The Pleasant Hour Club was entertained by Mrs. Emma McFall of North Church street Saturday afternoon. An interesting program was carried out after which a two course luncheon was served. The guests then enjoyed a social hour.

St. Patrick's Party At Woman's College.

The sophomores of Illinois Woman's college entertained the seniors Saturday night at a St. Patrick's day party in the expression hall. The prevailing decorations of the season were used and a number of interesting games made the evening hours pass quickly by. Dr. and Mrs. Harker, Miss Mothershead and Miss Jennie Anderson were guests of honor.

Mr. and Mrs. Gunn Are Given Reception

Friends of Mr. and Mrs. Charles D. Gunn, to the number of seventy-five gathered Saturday evening at the home of Mrs. John T. Gunn, Mr. Gunn's mother, west of the city, for a reception and pleasant social evening. Mr. and Mrs. Gunn have just returned from a wedding tour and a visit with relatives in Decatur and expect to begin housekeeping at once on the mound road near the end of the car line.

Green and white were used in the house decorations, smilax, ferns and potted plants being employed to good effect. Refreshments were in keeping with the season. The guests from away were Mr. and Mrs. George W. Daniels and Miss Mildred Daniels of Petersburg; Harrison Robertson of Chapin, Mr. and Mrs. L. P. Cowdin, Joy Prairie; Mrs. Charles Whitlock, Prairie Grove, Ark.; Mrs. Leora Rawlings, Franklin, and Miss Phoebe Sharpe, Springfield.

Gave Birthday Party

In honor of her eighteenth birthday, Miss Esther Osborne, daughter of Mr. and Mrs. J. E. Osborne of Muraville, entertained a company of friends at dinner Saturday night. All the appointments were attractive and the event was one of great pleasure for the guests. The company included Misses Melinda McCarty, Floresco Short, Lena Wilson, Edna and Esther Osborne, Messrs. Edwin Clemmons, Willard Wesner and George Kennedy.

U. C. T's Hold Annual Election

Officers for the year were elected and Sunday, April 9, was fixed upon as the date for the annual sermon, at a regular meeting Saturday evening of Jacksonville Council No. 182 United Commercial Travelers. Gerald Taylor, retiring past councillor;

George Haigh and L. H. Kraus were selected to attend the grand council in Bloomington next May.

The officers elected were: Senior councillor—L. H. Kraus. Conductor—C. H. Pailico. Junior councillor—Vincent Lavery. Past councillor—George Haigh. Page—H. A. Mortenson. Sentinel—A. Jansen. Executive committee—J. A. Munton, Chris. Anderson and Thomas Cannon.

ADD SOCIAL I. W. C. Party at Colonial Inn.

"Baby photos" were a pleasing feature of a reception Saturday evening at Colonial Inn, when third year preparatory students of Illinois Woman's College academy entertained the fourth year class. Each guest brought a childhood photograph and when there were projected upon the screen opportunity was given to guess the identity of the owner. This game was preceded by the reception and was followed by the serving of refreshments. Pink, yellow and white and brown were used in carrying out the color effect in different rooms. Guests of honor were Dr. and Mrs. J. R. Harker, Miss Motherhead, Miss Dorothea Washburne, officer of the fourth year class and Miss Steward, third year class officer.

I. C. Social Club Meets Saturday.

The social club of Illinois college met for a pleasant evening Saturday at Academy hall. Officers of the club, recently elected are, president, Royal Davis; vice president, Miss Blanche Gray; secretary, Bryan Ennis, and treasurer, Miss Frances Taylor.

Y. M. C. A. VOLLEY BALL.

Ed Hopper's team defeated the team of M. W. Osborne Saturday evening in the first of a series of three Saturday evening tournaments at the association building last night, winning two games out of three. These Saturday night games will be continued two weeks and will be open to the public. The scores were 21-17, 10-21 and 12-21, for Mr. Hopper's and Mr. Osborne's teams, respectively. The lineup: Hopper's team, Percy A. Jenkinson, H. A. Brewer, K. Y. Rowe and Earl M. Johnston. Osborne's team, H. Jay Rodgers, John M. Butler, Leo Cooney and A. C. Metcalf.

FRED GIBSON WINS CAR.

Fred L. Gibson, manager of the Widmayer East State street market, is the possessor of a new Buick Baby six automobile offered as a prize by a local organization of traveling men. Mr. Gibson was holder of the lucky number and news of the drawing was announced Saturday. The auto is a 1916 six-cylinder, five-passenger model.

Lawrence Ryan of Franklin is spending a few days with friends in Jacksonville. Mr. Ryan has not been a frequent visitor in the winter months.

MISS COALE WILL SPEAK.

Miss Martha Coale, the public health nurse, will speak Tuesday evening at a meeting of the Brotherhood of Mt. Emory Baptist church. All are welcome.

AT BETHEL A. M. E. CHURCH.

Bethel A. M. E. Church, Marion St., Rev. J. E. Carter, Pastor. Services, 10:00 a. m. Infant's church, 10:45 a. m. Preaching, 7:45 p. m. Preaching, Sunday class at 1:00 o'clock. Sunday school at 2:45 p. m. A. C. E. League, 6:30 p. m.

LEAVE FOR INDIANA.

D. E. Boxell and family, who are moving to Marion, Ind., left Jacksonville last night over the Wabash. Their household goods were shipped the day previous. As previously mentioned, Mr. Boxell and sons will open a coffee house and grocery in Marion, and expect to establish a chain of stores. It is possible that at a later date they may return to Jacksonville as they consider this city in every way a most desirable place of residence.

A vote for J. H. Henderson for Commissioner in Dist. No. 7, April 4th, is a vote for good roads and a square deal.

A Voter.

MR. CAMP RESUMES FORMER POSITION.

W. S. Camp, who for several years past has served as editor of the Jacksonville Courier, was recently appointed instructor in printing at the State School for the Deaf, which post he resigned to go to the Courier. Mr. Camp's record at the institution was such that his services were highly valued by the Board of Administration.

WE EXPECT ANOTHER LIBERAL SHIPMENT OF LADIES' TAILORED SPRING SUITS TOMORROW SOME SLENDID VALUES AT \$16.50 TO \$25.00.

F. J. WADDELL & CO.

LITERBERRY VISITORS.

Miss Annabel Crum, Miss May Martin, Mr. and Mrs. Earl Underbrink, Mr. and Mrs. Earl Rexroat and Willard W. Young, were in the city Saturday from Literberry.

CHALMERS CARS RECEIVED.

A. D. Arnold and G. R. Cain yesterday received two Chalmers 30's. One was delivered to County Treasurer W. A. Masters and the other will be driven by Mr. Arnold.

IMPRESSIVE FUNERAL SERVICES HELD FOR CHARLES H. CONDIT

Many Friends Pay Tribute of Respect to Well Known Winchester Banker Saturday Afternoon—Rev. C. W. Caseley in Charge.

Winchester, Ill., March 18.—Funeral services for Charles H. Condit were held this afternoon at 2:30 o'clock at Winchester M. E. church in presence of a concourse of sorrowing friends which filled the church edifice well to overflowing. The Rev. C. W. Caseley, pastor of the church, was in charge of the service and preached a sermon in which were intermingled sincere tribute to the memory of the dead and wholesome precept for guidance of friends yet living. Rev. Mr. Caseley was assisted by the Rev. F. A. McCarty of Jacksonville, the district superintendent. Mr. Condit stood high in the councils of the church, holding for several years the position of trustee and standing ever ready with sound advice or ready aid.

"Lead Kindly Light" sung by Miss Mary Violet Miss Grace Thompson, Otis Robinson and E. J. Markille, began the service. Rev. Mr. McCarty read the scripture after which Rev. Mr. Caseley offered prayer. Miss Violet sang "Calvary" and Rev. Mr. McCarty read to the assembled friends an obituary sketch of Mr. Condit. The pastor took his text from II Timothy, 1-10: "But it now made manifest by the appearing of our Savior, Jesus Christ, who hath abolished death and hath brought life and immortality to light through the gospel." After the sermon Miss Violet sang, most impressively, "One Sweetly Solemn Thought."

Flowers brought in great profusion, were cared for by Mrs. P. D. Smith and Misses Margaret Bringle, Henriette Hainsfurther, Elsie Edmondson, Lillian Davis, Margaret Walsh and Sybil Smith. Honorary bearers were A. T. Elmore of St. Louis, John Schultz of Beardstown, Robert Allan of Riggsport, Dr. George Bowman of Alsey, D. F. Green of Alsey, Oscar Young, J. T. Wilson, F. H. Allan, Charles Doyle and J. A. McKee. The burial was made in Winchester cemetery and the active bearers were J. C. Neat, A. Hainsfurther, Dr. J. W. Eckman, W. D. Gibbs, George Woodall, Winchester, and Alonzo Ellis, White Hall.

Among the relatives and friends present from away were Mr. and Mrs. T. K. Condit, John Schultz, Henry Condit, Mr. and Mrs. Floyd Condit and Ted Nicholson, Beardstown; Mr. and Mrs. Sidney Condit, Chicago; Mrs. Hall, St. Louis; Mr. and Mrs. H. C. Worcester, Roodhouse; Mrs. Bagby and Mrs. Seaber, Webster Grove, Mo.; Mr. and Mrs. William Condit and son, Astoria; Andrew Russell, Jacksonville; Edward Ken-

WORKMAN AT BEGGS ELEVATOR KILLED BY B. & O. TRAIN

Accident Saturday Forenoon at Ashland Brings Sudden Death to W. L. Graham of Peoria—Inquest Held by Coroner Barneycastle.

W. L. Graham of Peoria, for ten years or more an employee of the Beggs Elevator company of Ashland, was killed Saturday forenoon at 9 o'clock by a B. & O. train while at work by the side of the elevator. The coroner's jury which sat in the undertaking parlors of George S. Bergen, late Saturday afternoon brought in the verdict that Mr. Graham "came to his death by being struck by a Baltimore & Ohio train near the Beggs elevator."

No one is said to have seen the accident, the Wilson Graham, a son of the deceased, was engaged in carpenter work beneath the elevator when the accident happened. Mr. Graham lived for ten or fifteen minutes, it developed at the inquest. He was pronounced dead by Dr. Darwin S. Gailey and Dr. D. Lyon. Mr. Graham suffered a fractured skull, scalp wounds of considerable size. His right leg was found to be broken as well as the left shoulder.

Coroner Barneycastle arrived from Beardstown Saturday afternoon to hold the inquest. D. H. Sorrells was foreman of the jury and the other members were Cal True, Harry Antle, Samuel Latham, Clarence Buck and Frank Hinds.

Mrs. Graham was expected to arrive from Peoria last night and funeral arrangements will be made upon her coming. Mr. Graham leaves four children, two daughters and two sons. Wilson Graham has for some time been in the employ of the elevator company and Ralph Graham is engaged in the automobile business in Kansas City.

ELECTRIC SERVANTS NOW HAVE PLACE IN MANY HOUSEHOLDS

Reduced Costs the Reason for Their Number—Placing of Switches and Fixtures a Big Problem.

The "Wire your Home" campaign now in progress in Jacksonville, is giving point and interest to electrical matters. John M. Doyle, a well known local electrician yesterday commented upon the decrease in the cost of electricity which has come so rapidly in the past ten years. There have been steady reductions until it is the common thing now to have electrical home appliances. They give conveniences unknown in former years and can be maintained at very small cost. This list of household appliances including electric irons, washing machines, vacuum cleaners, toasters, grill, etc., are rightly termed the "little electric servants," and can be operated at a cost of only two or three cents an hour. They save so many household steps and lighten the work to such a degree that they should be in every home. The coming of the Mazda lamp has cut current costs and the household possibilities of electricity for families of even modest means are such that the "wire your home" campaign is certain to prove popular.

Planning For Switches and Fixtures.

According to J. C. Walsh of the Walsh Electric company, the problem of arranging the wiring and switches of a home deserves careful consideration. "Somebody must carefully study the matter if the desired results in light and convenience are attained. The installation of switches costs a little extra in the wiring bill, but they soon pay for themselves and the man who wires his house wisely includes a liberal number of switches. It is desirable for stair and hall lights to be so arranged that they may be turned on and off from any one of several switches. With the system now possible a light in the first floor hall and one in the second floor above may be controlled by a switch at the entrance door, or controlled in like manner from above.

"In many homes a popular way now is to install a master switch, possibly in a bedroom, from which place lights all over the house can be turned on if desired. This arrangement affords a lot of burglary protection. But these are only a few of the 'switch points' and the house today with wiring modernly planned has many switch conveniences unheard of a few years ago. But in these days, lighting is only one of the purposes of wiring the home, for electricity is now furnishing so many economical aids to housekeeping.

"In the dining room it is easy to have an equipment attached to the table for heating the electric chafing dish, egg boiler, toaster or percolator. With a simple plug system it is possible for the housewife to use appliances at the table and then disconnect them just as quickly as the task is done. Electricity in the dining room, the kitchen, the laundry, not alone for light, has solved the servant problem in many homes, by so lightening the drudgery of household cares that no helpers outside the home circle are needed. 'Electrical preparedness' is the term they are using now and the home which can measure up to this condition is equipped with finger point conveniences which add decidedly to the pleasure and comfort of living."

THE GREAT TWO YEAR RECORD OF OAK LAWN SANATORIUM

Two years ago, the announcement was made in our Jacksonville papers, that Oak Lawn Sanatorium has been especially equipped for the treatment of chronic diseases, viz.: Brights disease, Diabetes, Rheumatism, Gout, Neuritis, Hardening of the Arteries, Uremic poison, Nervousness, Heart and Stomach Troubles, general debility and all diseases due to auto intoxication. This announcement was ridiculed by certain members of the medical profession as was anticipated but to our satisfaction many patients who had been treated for years by these self same physicians, without benefit, came to us as a last resort, some hopeless, some absolutely helpless and despondent having been pronounced incurable by the physicians. We are pleased to state they returned home in good health and now, after the past two years experience, we are in a much stronger position to prove our statements and claims to relieve the diseases above mentioned. We are most happy to submit the names of the people living in Jacksonville, who have been benefited at Oak Lawn Sanatorium and we believe would gladly testify to these facts:

Mr. F. L. Andrews.
Mr. LeFont Andrews Jr.
Mr. Charles Buehr, of Jenkinson & Bode's.
Mrs. Mary Turner Carriel.
Mr. and Mrs. W. H. Cocking.
Mrs. Charlesworth.
Mrs. Hattie Doying.
Miss Nellie Doying.
Mr. Fred Faugust.
Mrs. Ernest Frost.
Mrs. L. A. Frost.
Mr. Peter Hamill.
Mr. Green Luttrell.
Mr. Frank Leach.
Mr. Wm. H. Masters, Co. Assessor and Treasurer.
Mr. Frank Nunes, C. & A. Baggage Agent.
Mr. Charles Price.
Mr. Geo. Rodrigues.
Mrs. John E. Ross.
Mr. J. A. Shadid.
Mrs. Constance Smith.
Mrs. Marian Tanner.
Miss Annie Tanner.
Miss Elizabeth Thornley.
Mr. T. M. Tomlinson.
Mr. Chas. Ward.
Mr. Bert Van Winkle.
Mr. John Vasconcellos.
Mrs. Edward Vickery.
Miss Frances Wood.
Mr. Russel Waterfield.
Mrs. Ada Williams.
Mrs. Nellie Hamilton.
Mr. William Penate.
Mr. W. N. Hargrove.

THEY ARE SURELY BEAUTIES.

C. N. Priest, the Ford man, has just received two brand new 1916 sedan cars. They are the nicest as well as the best thing on the market.
